10 ORDINANCES.

10.1. 2ND CONSIDERATION OF ORDINANCE NO. 4473 - AN ORDINANCE TO AMEND ORDINANCE NO. 4400, THE SAME BEING THE ZONING ORDINANCE OF THE CITY OF COLUMBIA, TENNESSEE BY REZONING 1205 EAST END STREET, LOCATED AT TAX MAP 99 PARCEL 59.04, FROM CD-3L (NEIGHBORHOOD LARGE LOT CHARACTER DISTRICT) TO CD-4 (GENERAL URBAN CHARACTER DISTRICT) - WARD 3 - DEVELOPMENT SERVICES DEPARTMENT.

RECOMMENDATION: Approve Ordinance No. 4473 on second consideration.

INFORMATION: The applicant is requesting the rezoning of the one acre parcel for future residential development with the concept reflecting four possible lots. The original request was to rezone to a CD-3 (Neighborhood Character District) with a comprehensive plan amendment that would allow the zoning, however, Planning Commission reviewed the request and suggested the CD-4 district. CD-4 is a compatible zoning district for the Urban Neighborhood designated property. The Planning Commission

recommended approval with a vote of six to zero at the July meeting.

RECOMMENDATION: Forward the applicant's request to approve Ordinance No. 4475 as amended on second consideration.

INFORMATION: The applicant is requesting that the majority of the Carriage Hills Subdivision, approximately 55 lots, be rezoned from CD-3 (Neighborhood Large Lot) to CD-3L (Neighborhood Large Lot Character District). The lots are established in the subdivision and no changes are anticipated. The CD-3L zoning district permits the use of a single-family detached dwelling. There are three existing lots that only have a portion of the property within the city limits. The Planning Commission reviewed this request and recommended a denial, with a vote of five to one, based on Article 8.5.19.H.4.e, Whether conditions affecting the area have changed to a sufficient [extent] to warrant the Zoning Map Amendment or that the existing zoning of the property was the result of a mistake.

A. Water

"A water availability should be submitted. The availability of capacity to serve is based on a determination by the Fire Marshal of fire flow requirements and the information submitted on the Water Service Availability Request application. A flow diagram and instructions on how to submit the water availability request are available on the CPWS website or at the City Fire Marshal's website"

B. Sewer

Columbia Wastewater approves.

C. Police

The jurisdiction of the Columbia Police Department will be extended to the areas annexed immediately upon the effective date of annexation.

D. Fire and Rescue

Additional Potential Concerns: Road width and integrity. The safety of citizens and first responder compromised by the width and integrity of the roadway raises additional concerns. Ideally, Fire Department vehicles should have enough road space to maneuver through traffic without putting anyone at risk. In relation to road space, Cul-de-sacs should be constructed to 96' ft. diameter, allowing for fire apparatus to safely turn around and navigate without obstruction. Additionally, the roadway should be wide enough to allow citizens' vehicles to yield the right of way safely.

Scope of Services:

The City of Columbia Fire & Rescue Department provides an array of services to the citizens and visitors of the City of Columbia. These services include but may not be

limited to non-emergency services such as fire prevention and codes enforcement, pre-incident planning, public education programs, smoke alarm check/replacement, emergency management preparedness, and emergency services such as fire suppression, heavy rescue, emergency medical first response, and hazardous materials response. The City of Columbia Fire Department currently holds an Insurance Service Organization (ISO) Class 1 rating.

1. Columbia Fire & Rescue strives to provide all services in a timely, courteous, and professional manner. Due to the nature of emergency services, we strive to arrive at the incident scene as quickly as possible but without posing additional dangers to the residents/visitors we meet while responding to your location.

2. **Infrastructure**: The infrastructure put in place is like this foundation of your development. If the infrastructure is designed and constructed with the present needs and future plans in mind, your development will be prepared for the future.

   Water: Columbia Fire & Rescue requires that there be sufficient water provided through the municipal water system to meet the needed fire flow requirements for your facility. These flows are calculated by the Fire Marshal. These flows are based on many factors dealing with your buildings' construction type, fire load in the building, square footage, and etc. If you install fire sprinkler systems in your facilities, Columbia Fire & Rescue can drastically reduce fire flow requirements.

   Roadway and Bridges: Columbia Fire & Rescue serves the residents and visitors of our jurisdiction by utilizing highly trained firefighters and modern fire apparatus. A minimum response to a structure fire in your development will be four fire apparatus. One of the fire apparatus that will respond to your development will be a ladder truck with a gross vehicle weight rating of approximately 80,000 pounds. Roadways and bridges must be designed and constructed not only with light vehicle traffic in mind but with the emergency service vehicles that will be servicing your department.

   Damage Free Property Access: Columbia Fire & Rescue requires all gates automatic or manual that will be or may be locked to be equipped with Knox Rapid Entry system. You can research this product at www.knoxbox.com or your gate vendor will be familiar with the product. Our department would also be happy to work with you to find what Knox Rapid Entry product is best suited for your application.

   Damage Free Home/Facility Access: Currently, Columbia Fire & Rescue does not require residential occupancies to be equipped with the Knox Rapid Entry system. However, this product is a very wise

investment for your future development. The Knox Rapid Entry System products allow homes to be secured but also allow the Columbia Fire & Rescue Department access to your property and /or homes without any delay or property damage. The system has an armored key lock safe recess mounted to the exterior of the homes with the key to the residence inside. Firefighters access the residence key during an emergency to gain entry into the home without causing any property damage. Again, our department would be happy to provide you with information and education on this program and its many positive attributes.

3. **Emergency Response to Your Location:** The proposed annex will be located on 22 acre portion of Tax Map 88 Parcel 33.07 off Estes Lane in Columbia, Tennessee. This location is approximately 3.4 mile from Columbia Fire Station #2 located at 711 Lion Parkway, 3.9 miles from Columbia Fire Station #4 located at 5040 Trotwood Avenue, 4.9 miles from Fire Station #1 located at 1000 South Garden in downtown Columbia. These distances are used to calculate an estimated response time to your development for the different levels of emergency response that may be needed at your facilities.

4. **Medical Emergency Response:** Columbia Fire & Rescue normally responds a minimum of one fire apparatus from Station #2 to service your location for a medical emergency. From the time you dial 911 until the fire department will arrive at your location will be within 5.00 minutes. Should your property experience a mass casualty incident where additional fire apparatus/firefighters would need to respond, then Fire Station #2 could send an additional unit and arrive on-scene within 5.50 minutes of your 911 call.

5. **Fire Incident Response:** The Columbia Fire & Rescue Department recommends a multi-faceted fire suppression approach. First, future homes should be constructed to meet or exceed all applicable fire and life safety codes. Secondly, even if not required by building, fire, or life safety codes, we encourage the installation and use of fire sprinklers in future homes.

6. Columbia Fire & Rescue's normal fire incident response to a single family residential development is three fire apparatus with a minimum 15 firefighters and 1 Chief Officer. Response times will be similar to the times estimated in the emergency medical response section. Your first fire apparatus should be on-scene within approximately 5.00 minutes, the second fire apparatus should be on-scene within 5.5 0minutes, and the third/fourth apparatus should be on-scene within 6.0 minutes. Due to OSHA standards that require at least four firefighters to arrive on-scene

prior to initiating an interior fire attack and Columbia Fire & Rescue's minimum staffing policy, it could take the 5.50 minutes to get the minimum number of firefighters to the scene to begin an interior fire attack.

7. In summary, the members of the Columbia Fire & Rescue consider it an honor to serve the residents and visitors in our community each and every day. When an emergency occurs, time is our worst enemy. Columbia firefighters train to reduce every second while not posing any additional undue risk to firefighters and/or the public when responding to or working at an emergency incident. The times estimated in the referenced examples are a combination of averages and estimations. Our department has very little data to support incident responses to your location. The time estimations are based on the fire companies being at their regular station, time it takes for Maury 911 to process a 911 call, the time it takes for Columbia firefighters to board the apparatus and leave the station, and the travel time from the station to your location is an estimate based on road miles, probable traffic conditions, and road conditions. You can see by the examples referenced above that it will take time for Columbia Fire & Rescue to receive your call for help and then respond to your location. The roadways have considerable driveway/cross street connections, hills, curves, and reduced speed zones that contribute to a long response time for fire apparatus to arrive.

E. Development Services

1. The planning and zoning jurisdiction of the City will extend to the annexed areas immediately upon the effective date of the annexation.

2. The property shall be zoned CD-3L (Neighborhood Large Lot Character District) upon the effective date of the annexation.

3. The code administration jurisdiction of the City will extend to the annexed areas immediately upon the effective date of the annexation.

4. Upon the effective date of annexation, all development will be required to abide by the Columbia Zoning Ordinance.

Wastewater Treatment Annexation

Project #:	23-0245	Location:	Map 88 Parcel 33.01
Applicant:	City of Columbia	Case Type(s):	Annexation Default Zoning
Staff Planner:	Kevin C. McCarthy, AICP	Proposed Use:	Utility Facility

PROJECT SUMMARY

The applicant requests annexation of 22 acres of land with the default zoning of CD-3L (Neighborhood Large Lot Character District). City Council has previously approved plans for expansion of the City's wastewater treatment plant and appropriated funds for the acquisition of land and capital costs. Property immediately adjacent to the existing treatment facility will accommodate the expansion. The expansion site is currently located outside of corporate limits of Columbia, in unincorporated Maury County. The Wastewater Department requests annexation of the subject site under the default zoning of CD-3L.

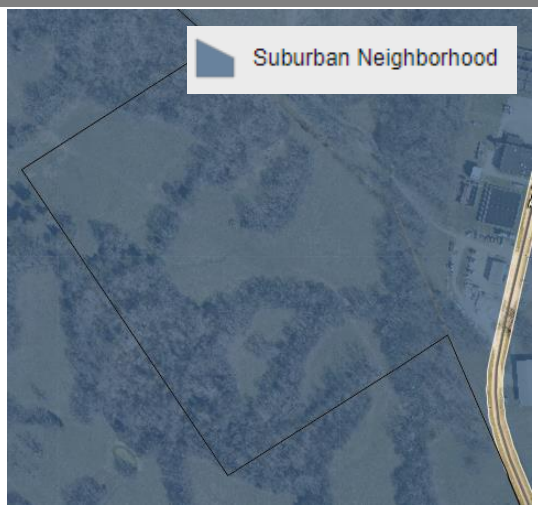

- The DRC reviewed this proposal at its July 2023 meeting.
- Development Services staff met with the Wastewater Department on July 19th to discuss the process of annexation.
- The request is consistent with the Connect Columbia, the City's comprehensive plan.
- CD-3L is an appropriate zoning designation for the subject site.
- The Planning Commission is a **recommending body** for annexation requests.
- Templates are provided at the end of the report to assist the Planning Commission in crafting properly formatted motions.

East	Suburban Neighborhood	SD-LI	Utility Facility
West	Suburban Neighborhood	Unincorporated	Single-Family

The subject site is located inside the Urban Growth Boundary (UGB) and immediately outside the corporate limits of Columbia. It is adjacent to the existing wastewater treatment facility. The property is bounded on the north and west by other portions of the facility. Existing large-lot residential property borders the property on the south and east. The future land use of the subject property and all adjacent properties is Suburban Neighborhood.

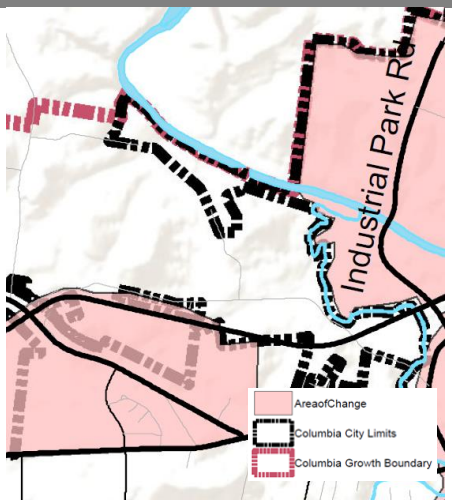

CONSISTENCY WITH CONNECT COLUMBIA

Suburban Neighborhood: The future land use of the subject site is Suburban Neighborhood. The Character Area is conducive to residential development and neighborhoods, with limited, intermixed and compatible civic uses (Connect Columbia, p. 22). The Future Land Use Plan indicates that "the general development pattern is defined by a single use activity on individual lots" (Connect Columbia, p. 22). Green space is largely incorporated on individual lots; neighborhood and community parks should be located within neighborhoods to enhance the quality of life. Development should emphasize connectivity and housing diversity (Connect Columbia, p. 23). The Character Area Matrix from page twenty-two of the Future Land Use Plan (excerpted below) is a guide to approving requests for zoning map amendments and Planned Unit Developments. The future land use classification is implemented by the CD-3L and CD-3 character districts, as well as PUDs.

CHARACTER AREA MATRIX				
	Development Pattern	**Zoning Category and Uses**	**Infrastructure**	**Design Standard**
SUBURBAN NEIGHBORHOOD	**Is the property in an Area of Change?** **No:** The development pattern is established. Changes to overall character of the area should rarely occur. **Yes:** The development pattern is evolving. Changes to the area are likely as development occurs. New development should respect both the natural environment and blend with existing, surrounding neighborhood assets.	**Residential Uses Zoning Category:** Low Density Residential District and Medium Residential. **Public and Civic Uses Zoning Category:** Religious Facilities, Government Facilities (low impact), and Educational Facilities.	**Not in an Area of Change:** Limited new services, with mostly in-fill enhancements to existing infrastructure. **Within an Area of Change:** Extensions to transportation, water, sewer, and other services should be expected. New service or extensive redevelopment of existing services should be vetted and reviewed by Planning Commission and City Council as a primary element of approval.	Scale: New dwellings and structures should be compatible with the established character of the area. Architecture: New developments should include a mix of architectural styles. Residential garages, if front-facing, should be recessed from the front façade of the structure. Civic use should respect the residential character, while providing architectural interest.

AREA OF CHANGE

The subject site **is not located** in an Area of Change (Connect Columbia Map 3). In 2017 the Planning Commission determined that the development pattern was established. Changes to overall character of the area should rarely occur. The designation does not necessarily mean that any particular development proposal is inconsistent with Connect Columbia. It does mean that the Planning Commission may pause to ensure the context of the area surrounding the subject property is considered fully in the review process. (Connect Columbia p. 14).

CONFORMITY WITH ZONING ORDINANCE

The applicant provided a concept plan with the request for annexation. The plan depicts a utility facility under a CD-3L zoning designation.

- Newly annexed properties shall have an initial zoning of CD-3L unless the applicant requests and the City Council approves, a different zoning classification consistent with Connect Columbia.
- The Zoning Ordinance permits utility facilities in every district (Table 4.3.9.A-1) subject to limited use standards listed in section **4.3.9.E**.

REVIEW PROCESS

The Development Review Committee evaluated the proposed Annexation at its July 2023 meeting, as directed by section **8.3.7** of the Zoning Ordinance. Technical comments are provided in the agenda package.

Section **8.5.19** of the Zoning Ordinance directs the Planning Commission to review and make a recommendation on all proposed changes to the Official Zoning Map. The Zoning Ordinance contains an apparent contradiction related to the zoning of newly annexed territory. Section **2.5** of the Ordinance indicates that "newly annexed properties shall have an initial zoning of CD-3L" unless that applicant makes a concurrent request for rezoning to any other district. Section **8.5.19.M** provides that "[w]henever new territory is added to the zoning jurisdiction of the City by any means, the Planning Commission shall recommend to the City Council appropriate zoning;" **§ 8.5.19.M** further indicates that "the area shall be temporarily unclassified" until City Council establishes the appropriate zoning.

The Planning Commission is recommending body for annexations and rezoning under **§ 8.3.3.B.3** of the Zoning Ordinance.

Section **8.5.19.H.4** of the Zoning Ordinance establishes the review criteria for approval of all changes to the Official Zoning Map:

a. The Rezoning is consistent and not in conflict with the Comprehensive Plan or other applicable approved local plans for the area;

b. It has been determined that the legal purposes for which zoning exists, as set forth in Section 1.5 [, are not contravened]; [1]

[1] Ordinance 4400 contains this incomplete sentence. The previous ordinance contained a nearly identical list of criteria at § 3.18.7.B. The corresponding criterion in Ordinance 3638 read "the legal purposes for which zoning exists are not contravened."

c. *It has been determined that there will be no adverse effect upon Adjoining property owners unless such effect can be justified by the overwhelming public good or welfare;*
d. *It has been determined that no one property owner or small group of property owners will benefit materially from the change to the detriment of the general public;*
e. *It has been determined that conditions affecting the area have changed to a sufficient to warrant the Zoning Map Amendment or that the existing zoning of the property was the result of a mistake;*
f. *It has been determined that adequate school, road, parks, wastewater treatment, water supply, and stormwater drainage facilities are available*

SUMMARY OF DEVELOPMENT REVIEW COMMITTEE COMMENTS

The DRC reviewed this proposal at its July 2023 meeting. A full list of comments, and the applicant's responses, is provided in the agenda packet. Some key comments are noted below.

- **Planning** indicated that the eventual utility facility must conform to the limited use standards at **§ 4.3.9.E.6(a-k)** of the Zoning Ordinance.
- The **Office of the Fire Marshal** and Columbia Water System's (**CPWS**) consultant (Inflow) noted that the applicant would need to confirm water availability.
- Columbia Power (**CPWS**) noted that it is able to serve the site.

COMMENTARY FROM PROFESSIONAL PLANNING STAFF

CD-3L is an appropriate zoning designation for the subject site. As mentioned above, the Zoning Ordinance contains an apparent contradiction related to the zoning of newly annexed territory. Fortunately, Planning Commission can leave the apparent contradiction unresolved in this case. The CD-3L zoning is consistent with the Future Land Use classification and the Ordinance permits the intended use in all districts. The Planning Commission may simply recommend annexation with a zoning of CD-3L, thereby conforming to both **§ 2.5** and **§ 8.5.19.M**.

Approval of the requested annexation and rezoning is appropriate. The request satisfies the criteria of the Ordinance for a change to the Official Zoning Map, as described below. The only outstanding technical comment is that, prior to an official public hearing, CPWS will need to provide written verification that adequate water will be available at the site. Actual development of the site will be subject to subsequent administrative reviews. The applicable standards of the Ordinance will mitigate any negative impacts on surrounding neighbors.

The requested CD-3L zoning is consistent with Connect Columbia. The subject site's future land use classification is Suburban Neighborhood. The future land use classification is implemented

by the CD-3L and CD-3 character districts, as well as PUDs. The Zoning Ordinance allows the intended use in a CD-3L district.

Annexation and rezoning of the subject property do not contravene the purposes of zoning. In particular, annexation and development of the subject site will provide for the beneficial use of property through ought Columbia by improving wastewater treatment capacity.

There are no known adverse impacts on surrounding property owners. The only adjacent property owner is the previous owner of the property. No adverse impacts to other properties are known at this time. In the event that the proposed annexation and rezoning does impact other properties, approval, combined with efforts to mitigate the impacts, may be justified by the overwhelming public good of the proposed wastewater facility.

The proposed annexation and rezoning will benefit the city as a whole. No one property owner or small group of property owners will benefit materially from the change to the detriment of the general public.

Conditions affecting the area have changed to a sufficient to warrant the Zoning Map Amendment. The City has previously determined that an expansion of wastewater treatment capacity at the subject site is necessary in order to maintain the level of service for current and future residents. Annexation of the subject property is a condition precedent for expansion of the wastewater facility.

There will be sufficient infrastructure to support the property. The proposed use of the property is itself an expansion of wastewater infrastructure. Although the subject site does not presently have adequate water supply for fire protection, Columbia Power and Water intends to extend service to the site sufficient to provide fire flow and water for plant operations.

SUMMARY OF REQUEST: **Comprehensive Plan Amendment & Zoning Map Amendment (CD-3L to CD-3)**

The applicant requests to rezone a 1.02-acre parcel located on the east side of East End Street from CD-3L (Neighborhood-Large Lot) to CD-3 (Neighborhood Character District). Both the current and requested zoning designations are primarily residential in character. The Zoning Ordinance permits two dwelling units per acre in CD-3L and four dwelling units per acre in CD-3. In support of the requested rezoning, the applicant provided a concept plan which depicts the division of the property into three single family lots.

The requested CD-3 zoning is not consistent with the Future Land Use classification of Urban Neighborhood. Consequently, the applicant also requests to amend the Future Land Use Map (FLUM) of Connect Columbia, the City's comprehensive plan, from Urban Neighborhood to Suburban Neighborhood.

This report summarizes staff analysis of the FLUM amendment as well as the consistency, conformity, and compatibility of the proposed rezoning.

MAP SOURCE: City GIS

EXISTING ZONING	EXISTING LAND USE	SURROUNDING ZONING & LAND USE	SITE IMPROVEMENTS PROPOSED	SIZE OF PROPERTY
CD 3L	Vacant	CD-3L/ CD-3/ Single-Family Homes/ Membership Lodge	Single-Family Homes	±1.02 Acres

CONSISTENCY with the **COMPREHENSIVE PLAN:**	**PROPERTY HISTORY:**
Urban Neighborhood: The future land use of the subject property is Urban Neighborhood. The classification is characterized by residential development and neighborhoods, with intermixed and compatible civic uses. The requested CD-3 zoning designation is not consistent with the Urban Neighborhood future land use classification. The applicant requests to amend the FLUM to designate the property Suburban Neighborhood. The requested CD-3 zoning is consistent with the Suburban Neighborhood future land use classification.	The subject property is currently vacant. Previously existing structures were demolished in 2022. The current owner acquired the property in 2022. This is the first development proposal on record for this property.

CONFORMITY to the ZONING ORDINANCE:

As required by § 8.5.19.F.3 of the Zoning Ordinance, the applicants provided a concept plan (i.e. "Sketch Development Plan") demonstrating that it is possible to develop the property in conformity with the standards applicable to the requested zoning designation. Any development plan/preliminary plat must comply with Zoning Ordinance 4400, adopted on July 14th, 2022. This request for rezoning simply establishes entitlements under the zoning ordinance, not a vested right to develop the site as depicted in the concept plan.

Zoning Ordinance Referenced: Proposed CD-3 Character District (Table 4.3.1-C, p. 66-67)

The Ordinance describes the CD-3 Neighborhood District as a medium density single-family detached residential area in which houses form the predominant building type, although limited use of duplexes is permitted. Homes are separated from the street and each other by minimum setbacks. Thoroughfares form medium-sized blocks, may have curbs, and may include sidewalks and street trees. The district permits a maximum gross density of four dwelling units per acre. CD-3 is an appropriate implementing district for the Suburban Neighborhood future land use classification. It is not an appropriate implementing zone for the subject property's current future land use classification: Urban Neighborhood. The CD-4 General Urban, and CD-5 Urban Center districts implement the Urban Neighborhood future land use classification.

Lot/Building Site Width (Table 4.3.1-C, p. 68)

- Minimum lot width of 65' (40' if alley-loaded garage is provided; 100' for a duplex)
- Frontage buildout not regulated
- No less than 80% of lots must enfront a vehicular thoroughfare or internal drive conforming to the standards of the Ordinance and Subdivision Regulation
- Up to ≤ 20% of the lots may Enfront a pedestrian path, passage, pedestrian walkway if such Lots have legal and physical vehicular access to a vehicular thoroughfare via driveway or Easement

Lot Standards/ Principle Buildings (Table 4.3.1-C, p. 68)

- 25' min front setback
- 8' min side setback

- 25’ min rear setback (measured from the rear property line or centerline of rear alley as applicable)

Staff Comment:

The concept plan depicts three 70’ wide single-family lots enfronting East End Street, yielding a gross density of 2.94 dwelling units per acre. The requested CD-3 zoning is inconsistent with Connect Columbia. The comprehensive plan calls for the future development of the site at higher density with more prescriptive design standards. The CD-3 zoning is consistent with the requested Suburban Neighborhood future land use classification. However, the requested amendment to the FLUM would create an island of Suburban Neighborhood surrounded by Urban Neighborhood. Over time, if the plan is fully implemented, surrounding properties will transition to CD-4 and CD-5 zoning, leaving the subject parcel as an incongruous spot on the zoning map.

If a Preliminary Plat is submitted for Planning Commission review in the future, staff will prepare a detailed analysis of whether it conforms to the standards of the Ordinance. Subsequent proposals to construct homes on the site would be subject to administrative review and approval.

Zoning Map Amendment:

Staff reviewed the request for a zoning map amendment for conformity with the standards listed in the City of Columbia Zoning Ordinance. The relevant provisions of the Ordinance are listed below, followed by staff analysis.

Staff’s review of Section 8.5.19.H.4 in relation to this request finds the following:

a. Whether the Rezoning is consistent and not in conflict with the Comprehensive Plan or other applicable approved local plans for the area;

The subject property has a future land use classification of Urban Neighborhood (Connect Columbia Map 4). The proposed change, from a low-density CD-3L neighborhood large lot character district to a medium-density CD-3 neighborhood character district, is inconsistent with the Suburban Corridor future land use classification (Connect Columbia p.24; Zoning Ordinance Table 3.7.1 p.36; Zoning Ordinance Table 4.3.1-C, p. 66).

If the Planning Commission approves the request FLUM amendment to designate the subject site Suburban Neighborhood, the requested CD-3 zoning will be consistent with Connect Columbia.

The property is not located in an Area of Change (Connect Columbia Map 3), meaning that in 2017-2018, the Planning Commission determined that the development pattern was established and changes to overall character of the area should rarely occur. This does not necessarily mean that the proposed change is inconsistent with Connect

Columbia. However, the plan advises a "pause" and careful review to ensure that the context of the area surrounding the subject property is considered (Connect Columbia p. 14).

b. Whether the legal purposes for which zoning exists, as set forth in Section 1.5[, are not contravened];[1]

All future use of the properties will be required to conform to the standards of the Zoning Ordinance. The standards protect and promote the public health, safety, morals, comfort, convenience, and general welfare of the people and community (§ 1.5.1.A p. 6).

The Planning Commission may determine that the proposed rezoning furthers the other purposes of zoning listed at §§ 1.5.1 and 1.5.2 of the Ordinance.

c. Whether there will be any adverse effect upon adjoining property owners unless such effect can be justified by the overwhelming public good or welfare;

There are no known adverse effects upon adjacent property owners.

d. Whether any one property owner or small group of property owners will benefit materially from the change to the detriment of the general public;

Rezoning the property will likely provide material benefits to the owner. However, any potential detrimental effects on the general public can be mitigated through the standards in the Zoning Ordinance.

e. Whether conditions affecting the area have changed to a sufficient [extent] to warrant the Zoning Map Amendment or that the existing zoning of the property was the result of a mistake;[2]

The proposed change to the zoning map will allow the property owner to add units to the local housing inventory. Planning Commission may determine that demand for housing in the City of Columbia has increased to a sufficient extent to warrant an increase in the area of the city zoned for medium-density residential development. It is within the discretion of the Planning Commission to determine that other circumstances have changed to a sufficient extent to warrant an increase in the area zoned for residential development.

[1] Ordinance 4400 contains this incomplete sentence. The previous ordinance contained a nearly identical list of criteria at § 3.18.7.B. The corresponding criterion in Ordinance 3638 reads "the legal purposes for which zoning exists are not contravened."

[2] The word *extent* was unintentionally omitted in the drafting of Ordinance 4400. The word was present in the corresponding criterion in Ordinance 3638.

f. Whether adequate school, road, parks, wastewater treatment, water supply, and stormwater drainage facilities are available.

Technical comments from public service providers generally indicate that services are in place to support the zoning change.

Comprehensive Plan Amendment /Adoption:

Staff reviewed the requested amendment to the Future Land Use Map under the review standards listed in the City of Columbia Zoning Ordinance. The relevant provisions of the Ordinance are listed below, followed by staff analysis.

Staff's review of Section 8.5.20.F in relation to this request finds the following:

Criteria for Planning Commission Recommendations

The recommendations of the Planning Commission to the City Council shall show that the Planning Commission has studied and considered the proposed Land Use Plan Amendment in relation to the following, where applicable:

1. Whether the proposed change would be consistent with the intent, goals, objectives, policies, guiding principles and programs of all other applicable adopted Land Use Plans;

   The proposed change to the future land use map ***is not consistent with the guiding principles of the adopted land use plan****. Connect Columbia, as adopted in 2018, utilizes the transect model as the guiding principle for organizing land use (Connect Columbia p. 11). The transect model "defines a series or character areas that transition from sparsely populated areas, consisting of farmland, to the dense urban core of a city" (p.10). Accordingly, the future land use element of the plan organizes the City into Character Areas forming a continuum of density and intensity from most rural to most urban. These future land use classifications are implemented through the character districts in the Zoning Ordinance (e.g. CD-3L, CD-3, CD-4). A reduction of intensity on a single parcel near the core of the planning area is inconsistent with this guiding principle. According to the plan, the subject site should remain available for higher intensity development in the future, partly in order to direct growth away from the periphery of the urban growth boundary.*

2. Whether the proposed change would be compatible with the existing land use pattern and designated future land uses;

   The proposed change to the future land use map is consistent with the existing land use

pattern but is inconsistent with the designated future land uses.

3. Whether the proposed change would create substantial adverse impacts in the Adjacent area or the City in general;

   There are no known adverse effects upon adjacent property owners. However, a change to the future land use map could have adverse impacts on the future development of the City in general. Maintaining the Urban Neighborhood classification inside the core of the planning area reserves land for future growth and relieves pressure on annexations and leap-from development.

4. Whether conditions affecting the area have changed to a sufficient extent to warrant the proposed change; and

   The proposed change to the future land use map will reduce the potential future development of the property. The current Urban Neighborhood future land use classification is implemented by the CD-4 and CD-5 zoning districts. Reducing the intensity of future development to Suburban Neighborhood, implemented by CD-3L and CD-3, would effectively reduce the total potential future housing inventory by one unit, and/or eliminate the possibility of developing the site for non-residential uses. Planning Commission may determine that conditions have changed to a sufficient extent that the proposed reduction in the intensity of future development is warranted.

5. Whether the subject parcel is of adequate shape and size to accommodate the proposed change.

   The subject site is just over one acre in size. The property can accommodate development at similar intensities under both the Urban Neighborhood and the Suburban Neighborhood future land use classifications.

SUMMARY OF REQUEST: **Comprehensive Plan Amendment & Zoning Map Amendment (CD-3L to CD-3)**

The applicant requests to rezone a 1.02-acre parcel located on the east side of East End Street from CD-3L (Neighborhood-Large Lot) to CD-3 (Neighborhood Character District). Both the current and requested zoning designations are primarily residential in character. The Zoning Ordinance permits two dwelling units per acre in CD-3L and four dwelling units per acre in CD-3. In support of the requested rezoning, the applicant provided a concept plan which depicts the division of the property into three single family lots.

The requested CD-3 zoning is not consistent with the Future Land Use classification of Urban Neighborhood. Consequently, the applicant also requests to amend the Future Land Use Map (FLUM) of Connect Columbia, the City's comprehensive plan, from Urban Neighborhood to Suburban Neighborhood.

This report summarizes staff analysis of the FLUM amendment as well as the consistency, conformity, and compatibility of the proposed rezoning.

CD 3L	Vacant	CD-3L/ CD-3/ Single-Family Homes/ Membership Lodge	Single-Family Homes	±1.02 Acres

CONSISTENCY with the **COMPREHENSIVE PLAN:**	**PROPERTY HISTORY:**
Urban Neighborhood: The future land use of the subject property is Urban Neighborhood. The classification is characterized by residential development and neighborhoods, with intermixed and compatible civic uses. The requested CD-3 zoning designation is not consistent with the Urban Neighborhood future land use classification. The applicant requests to amend the FLUM to designate the property Suburban Neighborhood. The requested CD-3 zoning is consistent with the Suburban Neighborhood future land use classification.	The subject property is currently vacant. Previously existing structures were demolished in 2022. The current owner acquired the property in 2022. This is the first development proposal on record for this property.

CONFORMITY to the ZONING ORDINANCE:

As required by § 8.5.19.F.3 of the Zoning Ordinance, the applicants provided a concept plan (i.e. "Sketch Development Plan") demonstrating that it is possible to develop the property in conformity with the standards applicable to the requested zoning designation. Any development plan/preliminary plat must comply with Zoning Ordinance 4400, adopted on July 14th, 2022. This request for rezoning simply establishes entitlements under the zoning ordinance, not a vested right to develop the site as depicted in the concept plan.

Zoning Ordinance Referenced: Proposed CD-3 Character District (Table 4.3.1-C, p. 66-67)

The Ordinance describes the CD-3 Neighborhood District as a medium density single-family detached residential area in which houses form the predominant building type, although limited use of duplexes is permitted. Homes are separated from the street and each other by minimum setbacks. Thoroughfares form medium-sized blocks, may have curbs, and may include sidewalks and street trees. The district permits a maximum gross density of four dwelling units per acre. CD-3 is an appropriate implementing district for the Suburban Neighborhood future land use classification. It is not an appropriate implementing zone for the subject property's current future land use classification: Urban Neighborhood. The CD-4 General Urban, and CD-5 Urban Center districts implement the Urban Neighborhood future land use classification.

Lot/Building Site Width (Table 4.3.1-C, p. 68)

- Minimum lot width of 65' (40' if alley-loaded garage is provided; 100' for a duplex)
- Frontage buildout not regulated
- No less than 80% of lots must enfront a vehicular thoroughfare or internal drive conforming to the standards of the Ordinance and Subdivision Regulation
- Up to ≤ 20% of the lots may Enfront a pedestrian path, passage, pedestrian walkway if such Lots have legal and physical vehicular access to a vehicular thoroughfare via driveway or Easement

Lot Standards/ Principle Buildings (Table 4.3.1-C, p. 68)

- 25' min front setback
- 8' min side setback

- 25’ min rear setback (measured from the rear property line or centerline of rear alley as applicable)

Staff Comment:

The concept plan depicts three 70’ wide single-family lots enfronting East End Street, yielding a gross density of 2.94 dwelling units per acre. The requested CD-3 zoning is inconsistent with Connect Columbia. The comprehensive plan calls for the future development of the site at higher density with more prescriptive design standards. The CD-3 zoning is consistent with the requested Suburban Neighborhood future land use classification. However, the requested amendment to the FLUM would create an island of Suburban Neighborhood surrounded by Urban Neighborhood. Over time, if the plan is fully implemented, surrounding properties will transition to CD-4 and CD-5 zoning, leaving the subject parcel as an incongruous spot on the zoning map.

If a Preliminary Plat is submitted for Planning Commission review in the future, staff will prepare a detailed analysis of whether it conforms to the standards of the Ordinance. Subsequent proposals to construct homes on the site would be subject to administrative review and approval.

Zoning Map Amendment:

Staff reviewed the request for a zoning map amendment for conformity with the standards listed in the City of Columbia Zoning Ordinance. The relevant provisions of the Ordinance are listed below, followed by staff analysis.

Staff’s review of Section 8.5.19.H.4 in relation to this request finds the following:

a. Whether the Rezoning is consistent and not in conflict with the Comprehensive Plan or other applicable approved local plans for the area;

The subject property has a future land use classification of Urban Neighborhood (Connect Columbia Map 4). The proposed change, from a low-density CD-3L neighborhood large lot character district to a medium-density CD-3 neighborhood character district, is inconsistent with the Suburban Corridor future land use classification (Connect Columbia p.24; Zoning Ordinance Table 3.7.1 p.36; Zoning Ordinance Table 4.3.1-C, p. 66).

If the Planning Commission approves the request FLUM amendment to designate the subject site Suburban Neighborhood, the requested CD-3 zoning will be consistent with Connect Columbia.

The property is not located in an Area of Change (Connect Columbia Map 3), meaning that in 2017-2018, the Planning Commission determined that the development pattern was established and changes to overall character of the area should rarely occur. This does not necessarily mean that the proposed change is inconsistent with Connect

Columbia. However, the plan advises a "pause" and careful review to ensure that the context of the area surrounding the subject property is considered (Connect Columbia p. 14).

b. Whether the legal purposes for which zoning exists, as set forth in Section 1.5[, are not contravened];[1]

All future use of the properties will be required to conform to the standards of the Zoning Ordinance. The standards protect and promote the public health, safety, morals, comfort, convenience, and general welfare of the people and community (§ 1.5.1.A p. 6).

The Planning Commission may determine that the proposed rezoning furthers the other purposes of zoning listed at §§ 1.5.1 and 1.5.2 of the Ordinance.

c. Whether there will be any adverse effect upon adjoining property owners unless such effect can be justified by the overwhelming public good or welfare;

There are no known adverse effects upon adjacent property owners.

d. Whether any one property owner or small group of property owners will benefit materially from the change to the detriment of the general public;

Rezoning the property will likely provide material benefits to the owner. However, any potential detrimental effects on the general public can be mitigated through the standards in the Zoning Ordinance.

e. Whether conditions affecting the area have changed to a sufficient [extent] to warrant the Zoning Map Amendment or that the existing zoning of the property was the result of a mistake;[2]

The proposed change to the zoning map will allow the property owner to add units to the local housing inventory. Planning Commission may determine that demand for housing in the City of Columbia has increased to a sufficient extent to warrant an increase in the area of the city zoned for medium-density residential development. It is within the discretion of the Planning Commission to determine that other circumstances have changed to a sufficient extent to warrant an increase in the area zoned for residential development.

[1] Ordinance 4400 contains this incomplete sentence. The previous ordinance contained a nearly identical list of criteria at § 3.18.7.B. The corresponding criterion in Ordinance 3638 reads "the legal purposes for which zoning exists are not contravened."

[2] The word *extent* was unintentionally omitted in the drafting of Ordinance 4400. The word was present in the corresponding criterion in Ordinance 3638.

f. Whether adequate school, road, parks, wastewater treatment, water supply, and stormwater drainage facilities are available.

Technical comments from public service providers generally indicate that services are in place to support the zoning change.

AGENDA ITEM TITLE: 2ND CONSIDERATION OF ORDINANCE NO. 4475 (AS AMENDED) - AN ORDINANCE TO AMEND ORDINANCE NO. 4400, THE SAME BEING THE ZONING ORDINANCE OF THE CITY OF COLUMBIA, TENNESSEE BY REZONING MULTIPLE PROPERTIES WITHIN THE CARRIAGE HILLS SUBDIVISION, LOCATED OFF CARTERS CREEK PIKE, FROM CD-3 (NEIGHBORHOOD CHARACTER DISTRICT) TO CD-3L (NEIGHBORHOOD LARGE LOT CHARACTER DISTRICT) - WARD 5

RECOMMENDATION: Forward the applicant's request to approve Ordinance No. 4475 as amended on second consideration.

INFORMATION: The applicant is requesting that the majority of the Carriage Hills Subdivision, approximately 55 lots, be rezoned from CD-3 (Neighborhood Large Lot) to CD-3L (Neighborhood Large Lot Character District). The lots are established in the subdivision and no changes are anticipated. The CD-3L zoning district permits the use of a single-family detached dwelling. There are three existing lots that only have a portion of the property within the city limits. The Planning Commission reviewed this request and recommended a denial, with a vote of five to one, based on Article 8.5.19.H.4.e, Whether conditions affecting the area have changed to a sufficient [extent] to warrant the Zoning Map Amendment or that the existing zoning of the property was the result of a mistake.

AN ORDINANCE TO AMEND ORDINANCE NO. 4400, THE SAME BEING THE ZONING ORDINANCE OF THE CITY OF COLUMBIA, TENNESSEE BY REZONING MULTIPLE PROPERTIES WITHIN THE CARRIAGE HILLS SUBDIVISION, LOCATED OFF CARTERS CREEK PIKE, FROM CD-3 (NEIGHBORHOOD CHARACTER DISTRICT) TO CD-3L (NEIGHBORHOOD LARGE LOT CHARACTER DISTRICT).

BE IT ORDAINED BY THE CITY OF COLUMBIA:

Section 1: That the City of Columbia Zoning Ordinance, the same being Ordinance No. 4400, and the zoning maps therein adopted be, and the same are hereby amended by rezoning the property herein described from CD-3 (Neighborhood Character District) to CD-3L (Neighborhood Large Lot Character District).

Section 2: Said properties to be rezoned, being lots 1-16; 18-38; 41-44; portions of 45-47; 48-55; and 57-62, in the Carriage Hills Subdivision are located in the Third Civil District of Maury County, Tennessee, within the corporate limits of the City of Columbia, as described on Exhibit "A", which is attached hereto and incorporated herein by reference. A location map showing the proposed area to be rezoned from CD-3 (Neighborhood Character District) to CD-3L (Neighborhood Large Lot Character District) is attached hereto, identified as Exhibit "B" and incorporated herein by reference.

Section 3: This Ordinance is passed after review of Columbia Zoning Ordinance Section 8.5.19.H.4 by the Columbia Municipal Planning Commission with a recommendation of denial on the 12th day of July, 2023, and after a public hearing held on the 14th day of September, 2023, with notice of said hearing being given in The Daily Herald of Columbia, Tennessee, fifteen (15) days or more before said hearing.

Section 4: That pursuant to Section 8.5.19.K.6, the City Council makes the following specific findings:

A. The proposed rezoning is in agreement with the Comprehensive plan and any applicable local area plans;

B. It has been determined that the legal purposes for which zoning exists are not contravened; and

C. It has been determined that there will be no adverse effect upon the Adjoining property owners unless such effect can be justified by the overwhelming public good or welfare;

Section 5: That all ordinances or parts of ordinances in conflict herewith are hereby repealed.

SUMMARY OF REQUEST: **Zoning Map Amendment (CD-3 to CD-3L)**

The applicant, a representative of a larger group of property owners, requests to rezone 52 existing single-family lots and portions of an additional 3 lots. All together the subject properties comprise approximately 33 acres in the Carriage Hills subdivision from CD 3 (Neighborhood Character District) to CD-3L (Neighborhood- Large Lot Character District).

This request is unusual in that it is made by a group of property owners who do not intend to further develop the subject properties. The concept plan submitted with the request is simply the current lot configuration of the neighborhood. This report summarizes staff analysis regarding consistency, conformity, and compatibility of the proposed rezoning. The applicant also provided a thorough explanation of how the request satisfies the approval criteria for a rezoning as part of the response to technical comments.

CONSISTENCY with the **COMPREHENSIVE PLAN:**	**PROPERTY HISTORY:**
Suburban Neighborhood: The future land use of the subject property is Suburban Neighborhood. The classification is characterized by residential neighborhoods with limited intermixed and compatible civic uses. The requested CD-3L zoning designation is consistent with the Suburban Neighborhood future land use classification.	Existing improvements on the property consists of single-family homes and various accessory structures. The homes were constructed outside the City of Columbia in 1980s and 90s. The City annexed the neighborhood in the early 2000s.

CONFORMITY to the ZONING ORDINANCE:

As required by § 8.5.19.F.3 of the Zoning Ordinance, the applicants provided a concept plan (i.e. "Sketch Development Plan"). In this case the applicants do not intend to develop the properties and simply provided a cadastral map depicting the current lot configuration.

The lots at 104, 108, and 112 Saxon Court are partially in the City and partially in unincorporated Maury County. The street frontages and existing principal structures are located inside Columbia. For those properties, the rezoning would only impact the portions located inside the corporate limits of Columbia.

Zoning Ordinance Referenced:

Proposed CD-3L Character District (Table 4.3.1-C, p. 56-65)

Both the current and requested zoning designations are residential in character. The Zoning Ordinance permits two dwelling unit per acre in CD-3L and four dwelling units per acre in CD-3. The minimum lot width for a "front-loaded" single family home is 100 feet in a CD-3L and 65-feet in a CD-3. House (i.e. detached single family homes) is the only permitted structure type in CD-3L. The CD-3 permits the duplex (i.e. two-family homes) structure type on lots with at least 100 feet of frontage under limited circumstances.

The Ordinance describes the CD-3L Neighborhood District as a low density single-family detached residential area in which houses form the predominant building type. Lots and building sites are large with medium to deep setbacks. Thoroughfares form medium to large-sized blocks, may have curbs, and may include sidewalks and street trees. The district permits a maximum density of two dwelling units per acre. CD-3L is an appropriate implementing district for the Suburban Neighborhood future land use classification.

Lot/Building Site Width (Table 4.3.1-C, p. 57)

- Minimum lot width of 100
- No less than 80% of lots must enfront a vehicular thoroughfare or internal drive conforming to the standards of the Ordinance and Subdivision Regulation
- Up to ≤ 20% of the lots may enfront a pedestrian path, passage, pedestrian walkway if such Lots have legal and physical vehicular access to a vehicular thoroughfare via driveway or Easement

Lot Standards/ Principle Buildings (Table 4.3.1-C, p. 68)

- 30' min front setback
- 12' ft min side setback
- 30' min rear setback (measured from the rear property line or centerline of rear alley as applicable)

Staff Comment:

The request to rezone all lots in an existing built-out subdivision is unusual. The change in entitlements is unlikely to change the physical character of the neighborhood. The existing homes and lots generally conform to the CD-3L standards, although cul-de-sac lots on Saxon Court have less than 100 feet of frontage. Although it is unlikely, some lots in the neighborhood could accommodate duplexes under the current CD-3 zoning. Changing the zoning to CD-3L would eliminate this option, effectively "downzoning" the properties by reducing the maximum permissible intensity of development.

Zoning Map Amendment:

Staff reviewed the request for a zoning map amendment for conformity with the standards listed in the City of Columbia Zoning Ordinance. The relevant provisions of the Ordinance are listed below, followed by staff analysis.

Staff's review of Section 8.5.19.H.4 in relation to this request finds the following:

a. Whether the Rezoning is consistent and not in conflict with the Comprehensive Plan or other applicable approved local plans for the area;

The subject properties have a future land use classification of Suburban Neighborhood (Connect Columbia Map 4). Both the current and proposed character districts are consistent with the Suburban Corridor future land use classification (Connect Columbia p.22; Table 3.7.1 p.36 of Zoning Ordinance).

Most of the subject properties are not located in an Area of Change; some of the lots in the northern portion of the subdivision are located within an Area of Change (Connect Columbia Map 3). The partial inclusion of the neighborhood in an Area of Change appears to be an error. The Area of Change map appears to indicate that in 2017-2018, the Planning Commission determined that the development pattern was established and changes to overall character of the area should rarely occur. This does not necessarily mean that the proposed change is inconsistent with Connect Columbia. However, the plan advises a "pause" and careful review to ensure that the context of the area surrounding the subject property is considered (Connect Columbia p. 14).

b. Whether the legal purposes for which zoning exists, as set forth in Section 1.5[, are not

contravened];[1]

All future use of the properties will be required to conform to the standards of the Zoning Ordinance. The standards protect and promote the public health, safety, morals, comfort, convenience, and general welfare of the people and community (§ 1.5.1.A p. 6).

The requested rezoning will potentially reduce the beneficial use of property by eliminating the option to construct duplexes on some lots (§ 1.5.1.P p. 7). However, the predominate and actual use of the properties for single family homes will not change.

The Planning Commission may determine that the proposed rezoning furthers the other purposes of zoning listed at §§ 1.5.1 and 1.5.2 of the Ordinance.

c. Whether there will be any adverse effect upon adjoining property owners unless such effect can be justified by the overwhelming public good or welfare;

There are no known adverse effects upon adjacent property owners.

d. Whether any one property owner or small group of property owners will benefit materially from the change to the detriment of the general public;

Rezoning the property will not confer material benefits to the owners. Any potential detrimental effects on the general public can be mitigated through the standards in the Zoning Ordinance.

e. Whether conditions affecting the area have changed to a sufficient [extent] to warrant the Zoning Map Amendment or that the existing zoning of the property was the result of a mistake;[2]

The proposed change to the zoning map does not have a material impact on the city as a whole or the subject properties, except that that maximum potential development of the neighborhood would be reduced by a few units. The unanimity of the residents in making this request indicates that the change (elimination of potential duplex units) is the desire of the Carriage Hills residents.

f. Whether adequate school, road, parks, wastewater treatment, water supply, and stormwater

[1] Ordinance 4400 contains this incomplete sentence. The previous ordinance contained a nearly identical list of criteria at § 3.18.7.B. The corresponding criterion in Ordinance 3638 read "the legal purposes for which zoning exists are not contravened."

[2] The word *extent* was unintentionally omitted in the drafting of Ordinance 4400. The word was present in the corresponding criterion in Ordinance 3638.

drainage facilities are available.

The Carriage Hills neighborhood is already established. Residents benefit from established urban services except that most properties in the subdivision are served by private septic systems and do utilize sanitary sewer. The proposed rezoning would reduce rather than increase the potential number of households on the subject properties. In practically terms the total number of dwelling units will not change. Technical comments from public service providers generally indicate that services remain in place. However, Maury County Schools, did submit comments on the proposed rezoning indicating that the high school which serves families in Carriage Hills is currently operating above capacity.

TERMS AND CONDITIONS

1. Relationship of the Parties :

(a) If this Agreement is with an Agency, Agency represents that it possesses the authority to act and is acting as agent (with authority to fully bind) for the Advertiser named on the face hereof (the "Advertiser").

i. If Agency has signed, Agency will be liable for the payment of sums due under this Agreement and Trailhead will look solely to Agency for the payment thereof, unless and until Agency becomes delinquent in its payments to Trailhead, or insolvent, at which time, without relieving the Agency of such liability until Trailhead is paid in full, Advertiser will be liable jointly and severally to Trailhead on all unpaid amounts due under this Agreement.

ii. Nothing herein contained relating to the payment of billings by Agency will be construed so as to relieve Advertiser of, or diminish Advertiser's liability for, breach of its obligations hereunder.

iii. If this Agreement is with an Agency (a.k.a media buying service), all references herein to "Advertiser" will apply to such Agency.

(b) If this Agreement is made directly with Advertiser, reference herein to "Advertiser" will apply to the business referenced herein as Advertiser.

2. Payment: Advertiser agrees to pay the total price according to the payment schedule set out in this Agreement. This Agreement is not cancellable by Advertiser. All such payments are due within fifteen (15) days of invoicing of each applicable advertising period and are subject to a late payment charge of 1.5% per month (prorated for partial months), or the maximum amount permitted by law, whichever is less, on the outstanding balance not paid by the due date. All checks must be made payable to "Trailhead Media, LLC" and sent to Trailhead's address on the first page of this Agreement. Advertiser will be solely responsible for the payment of any additional sales, use, privilege, excise, commercial rent, and/or other taxes imposed or assessed by a governmental/quasi-governmental agency against Advertiser, in connection with this Agreement. If Advertiser does not pay any amount when due under this Agreement, or otherwise fails to perform any of its obligations under this Agreement, Trailhead may, in addition to any other remedies available to Trailhead in law or in equity, cease all of Advertiser's advertising at the subject location(s), declare all unpaid sums immediately due and payable, terminate the Agreement in writing to Agency/Advertiser, and retain all sums previously received from Advertiser as a setoff against expenses incurred by Trailhead.

3. Advertiser supplied Artwork: All display copy (including, without limitation, artwork, content, and design) must be received by Trailhead at least five (5) business days prior to the scheduled date to post in order to ensure timely placement of advertising. Failure to timely submit copy will not result in a reduction or credit of fees paid for the applicable period of placement under this Agreement. Advertiser is responsible for all costs and expenses in connection with such copy, including the production thereof.

4. Artwork Designed by Trailhead: Advertiser shall be given two "proof" presentations, after which Advertiser shall be responsible for the payment of design fees at the rate of $150 per change. Advertiser shall be responsible for the full contract display period even if the advertisement cannot be displayed for the full contract period due to late approval and / or delivery of artwork. Advertiser understands the quality of the final design is determined by the materials provided.

5. Approval of Content: Trailhead retains the right of prior approval over all such creative, editorial, entertainment, and commercial content, and may reject any of same (in whole or in part) in its sole and absolute discretion. Advertiser shall deliver such creative and content to Trailhead for such approval process at least ten (10) days prior to the date scheduled for posting.

6. Marks: Advertiser represents and warrants that it is the owner of the trademarks and/or copyrights, or has secured all rights thereto, for all images and advertisement provided to Trailhead for placement and exhibition. Advertiser agrees to defend, indemnify, and hold harmless Trailhead and its officers, directors, members, employees, agents, representatives, affiliates, successors, and assigns from all liability, claims, demands, losses, damages or judgments, including costs and attorneys' fees, arising out of or in connection with the images and advertisement provided by Advertiser.

7. Obligations of Trailhead:

(a) If materials are timely delivered by Advertiser under Paragraph 3 above and approved by Trailhead under Paragraph 4 above, Trailhead will complete posting thereof no later than five (5) business days after the scheduled posting date under this Agreement. Advertiser will have the benefit of the full term of display from the average date of posting, unless such materials are not timely delivered under such Paragraph 3.

(b) Trailhead may reject the content of any advertising copy, submitted by Advertiser for any reason whatsoever, in its sole and absolute discretion. In addition, Trailhead may require advertising copy to be removed at any time once displayed.

(c) Trailhead shall retain exclusive control of the display of the advertising copy.

(d) Proof of Performance Policy: Trailhead will provide one (1) close-up photo or digital print for each creative execution. Rotation cycles will not be photographed unless the Advertising Copy changes.

8. Force Majeure: Trailhead shall not be liable to Advertiser or any other party for any failure to perform any part of this Agreement, including, without limitation, the failure of any advertisement to post or display due to: mechanical or equipment failure; federal, state, or local government action, statute, ordinance, rule, order, or regulation; strike or other labor trouble; riot or other civil disturbance; sabotage, fire, flood, wind, lightning or electrical storm; environmental hazard or other acts of God; pandemics or epidemics; inability to secure equipment or necessary ancillary material or supplies; or, without limiting the foregoing, by any other cause, contingency, or circumstance not subject to or within Trailhead's reasonable control which prevents or hinders Trailhead's performance of this Agreement (each, a "Force Majeure Event"). Any failure to perform or suspension of performance by Trailhead due to a Force Majeure Event shall not constitute a default or breach under this Agreement and Trailhead's sole liability therefore will be to apply a pro-rata credit towards Advertiser's final bill for any day in which Trailhead was unable to perform due to a Force Majeure Event. The operational failure of the signage as required herein will not constitute a default or breach under this Agreement, but Advertiser will be entitled to a return of value equivalent to the value of lost circulation, but not to exceed 20% of the contract price for the period of such operational failure.

9. Default; Remedies : Trailhead may terminate this Agreement immediately by written notice to Advertiser if Advertiser (i) fails to timely deliver any payment to Trailhead, or (ii) materially breaches any other provision of this Agreement and fails to cure such breach to Trailhead's reasonable satisfaction within ten (10) days after receiving written notice of such breach. Upon such termination by Trailhead, all unpaid amounts due from Advertiser to Trailhead during the entire term of this Agreement will immediately become due and payable, together with any late charges under Paragraph 2 above, and Trailhead shall be entitled to pursue all other available legal and equitable remedies in connection therewith, which remedies shall be cumulative. Advertiser may, upon written notice to Trailhead, terminate this Agreement upon material breach and failure to cure the same by Trailhead within ten (10) days after receiving a written notice thereof from Advertiser. Upon such termination by Advertiser, as Advertiser's sole and exclusive remedies, Trailhead will reimburse Advertiser for any amounts paid by Advertiser to Trailhead for periods in which the advertising copy was not displayed in accordance with this Agreement. Advertiser shall not be entitled to, and hereby waives any and all claims for, liquidated or consequential damages. Additionally, in no event shall Advertiser be entitled to specific performance or any other equitable remedy related to this Agreement.

10. Limitation of Damages : NOTWITHSTANDING ANY OTHER PROVISIONS OF THIS AGREEMENT, IN NO EVENT SHALL Trailhead BE LIABLE FOR INDIRECT, INCIDENTAL, LIQUIDATED, OR CONSEQUENTIAL DAMAGES (INCLUDING LOST PROFITS) SUSTAINED OR INCURRED IN CONNECTION WITH SERVICES OR ADVERTISING PROVIDED OR TO BE PROVIDED UNDER THIS AGREEMENT, REGARDLESS OF THE FORM OF ACTION, WHETHER OR NOT SUCH DAMAGES WERE FORESEEN OR UNFORESEEN. CONTRACT # 4286171

Date: 8/28/2023
New/Renewal: NEW
Account Executive: Erica Bussell
Phone: 615-228-5500

STANDARD CONDITIONS

1. Late Artwork: The Advertiser must provide or approve art work, materials and installation instructions ten (10) days prior to the initial Service Date. In the case of default in furnishing or approval of art work by Advertiser, billing will occur on the initial Service Date.

2. Copyright/Trademark: Advertiser warrants that all approved designs do not infringe upon any trademark or copyright, state or federal. Advertiser agrees to defend, indemnify and hold Lamar free and harmless from any and all loss, liability, claims and demands, including attorney's fees arising out of the character contents or subject matter of any copy displayed or produced pursuant to this contract.

3. Payment Terms: Lamar will, from time to time at intervals following commencement of service, bill Advertiser at the address on the face hereof. Advertiser will pay Lamar within thirty (30) days after the date of invoice. If Advertiser fails to pay any invoice when it is due, in addition to amounts payable thereunder, Advertiser will promptly reimburse collection costs, including reasonable attorney's fees plus a monthly service charge at the rate of 1.5% of the outstanding balance of the invoice to the extent permitted by applicable law. Delinquent payment will be considered a breach of this contract. Payments will be applied as designated by the Advertiser; non designated payments will be applied to the oldest invoices outstanding.

4. Service Interruptions: If Lamar is prevented from posting or maintaining any of the spaces by causes beyond its control of whatever nature, including but not limited to acts of God, strikes, work stoppages or picketing, or in the event of damage or destruction of any of the spaces, or in the event Lamar is unable to deliver any portion of the service required in this contract, including buses in repair, or maintenance, this contract shall not terminate. Credit shall be allowed to Advertiser at the standard rates of Lamar for such space or service for the period that such space or service shall not be furnished or shall be discontinued or suspended. In the case of illumination, should there be more than a 50% loss of illumination, a 20% pro-rata credit based on four week billing will be given. If this contract requires illumination, it will be provided from dusk until 11:00p.m. Lamar may discharge this credit, at its option, by furnishing advertising service on substitute space, to be reasonably approved by Advertiser, or by extending the term of the advertising service on the same space for a period beyond the expiration date. The substituted or extended service shall be of a value equal to the amount of such credit.

5. Entire Agreement: This contract, all pages, constitutes the entire agreement between Lamar and Advertiser. Lamar shall not be bound by any stipulations, conditions, or agreements not set forth in this contract. Waiver by Lamar of any breach of any provision shall not constitute a waiver of any other breach of that provision or any other provision.

6. Preemptable Space: This contract is below market value; hence, the Advertiser is purchasing preemptable space. Lamar shall have the right to sell another Advertiser the space contracted for herein during the time period contracted for herein, in whole or in part, in order to display substitute advertising copy which it, in its sole discretion, deems necessary. In the event Lamar temporarily substitutes another Advertiser's copy for the Advertiser's copy, Lamar will notify the Advertiser no later than one (1) day after the substitution has taken place. In this case, Lamar in its sole discretion will either (i) run the Advertiser's advertisement(s) for the same number of days as the advertisement was not run or (ii) refund to the Advertiser on a per diem basis for the time that the advertisement was not run.

7. Copy Acceptance: Lamar reserves the right to determine if copy and design are in good taste and within the moral standards of the individual communities in which it is to be displayed. Lamar reserves the right to reject or remove any copy either before or after installation, including immediate termination of this contract.

8. Termination: All contracts are non-cancellable by Advertiser without the written consent of Lamar. Breach of any provisions contained in this contract may result in cancellation of this contract by Lamar.

9. Materials/Storage: Production materials will be held at customer's written request. Storage fees may apply.

10. Installation Lead Time: A leeway of five (5) working days from the initial Service Date is required to complete the installation of all non-digital displays.

11. Customer Provided Production: The Advertiser is responsible for producing and shipping copy production. Advertiser is responsible for all space costs involved in the event production does not reach Lamar by the established Service Dates. These materials must be produced in compliance with Lamar production specifications and must come with a 60 day warranty against fading and tearing.

12. Bulletin Enhancements: Cutouts/extensions, where allowed, are limited in size to 5 feet above, and 2 feet to the sides and 1 foot below normal display area. The basic fabrication charge is for a maximum 12 months.

Claims or Actions shall specifically include but not be limited to the CSC's or Third Party CSC's public appropriateness. The foregoing duty to defend, cover and indemnify shall include, without limitation, a duty to pay any attorneys' fees and other costs of defense incurred by Lamar and its affiliates or subsidiaries.
(vi) Advertiser hereby grants to Lamar a paid up, non-exclusive, royalty-free license to use, reproduce, display, perform and modify the CSC and Third Party CSC, on its digital displays or to adapt the CSC and Third Party CSC for such use. The license granted herein includes the right to prepare works which may be considered derivative works of the CSC and/or Third Party CSC or any intellectual property contained therein. B.4 Plans and Specifications

a) In the event that the Agency is made responsible for the Preliminary Engineering in Section B.1.(a) of this Agreement and federal and/or state funding is providing reimbursement, except as otherwise authorized in writing by the Department, the Agency shall not execute an agreement for the Preliminary Engineering phase of the Project without the written approval of the Department. b) In the event that this Agreement involves constructing and equipping of facilities on the State Highway System and/or is a Project with Federal participation and the Agency is made responsible for Preliminary Engineering in section B.1.(a) of this Agreement, the Agency shall submit to the Department for approval all appropriate plans and specifications covering the Project. c) The Department will review the processes the Agency used for the acquisition of land and other right-of-way activities. If those processes are found to be in accordance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended (Public Law 91-646, 84 Stat. 1894), the Department will certify that the acquisition phase was completed appropriately. The Agency understands that the Project cannot proceed to the Construction phase until this certification of the acquisition phase has been provided. It further understands that if the processes used for acquisition are such that certification is impossible, federal and/or state funds will be withdrawn from the Project. If such withdrawal does occur, the Agency hereby agrees to reimburse the Department for all federal and/or state funds expended at the time of such withdrawal.

If there is any perceived failure, the Agency shall give prompt written notification to the Department's Resident Engineer in charge.

c) If the Project includes State Highway Right-of-Way and the Agency is responsible for the Construction phase, the Agency shall follow all requirements imposed by the TDOT Traffic Engineer.

d) In the event that the Project includes State Highway Right-of-Way and the Agency is performing any construction work on this project, such work shall be performed to the satisfaction of the Department. If the Agency is being compensated for any construction work under this Agreement, any remedial work deemed necessary by the Department shall be done at the Agency's sole expense.

e) The Agency understands that all contractors allowed to bid hereunder must be included on the Department's pre-qualified contractor list. Under Federal law, however, no contractor shall be required by law, regulation, or practice to obtain a license before submitting a bid or before a bid may be considered for an award of a contract; provided, however, that this is not intended to preclude requirements for the licensing of a contractor upon or subsequent to the award of the contract if such requirements are consistent with competitive bidding.

B.7 Detours

a) If the Agency deems a detour to be necessary to maintain traffic during a road closure, then the Agency shall select, sign, and maintain the detour route in strict accordance with the Departments Final Construction Plan Notes and the Manual on Uniform Traffic Control Devices.

b) In the event that the Agency is made responsible for the Utilities Phase in section B.1.(a) of this Agreement, the following applies:

1) The Agency shall assist and ensure that all utility relocation plans are submitted by the utilities and received by the Regional TDOT Utility Office per TDOT's coordination instructions for approval prior to the Project advertisement for bids.

2) The Agency agrees to provide for and have accomplished all utility connections within the right-of-way and easements prior to the paving stage of the Construction phase.

B.9 Railroad

a) In the event that a railroad is involved, Project costs may be increased by federally required improvements. The Agency agrees to provide such services as necessary to realize these improvements. The Agency understands it may have to enter into additional agreements to accomplish these improvements.

a) Only Project costs incurred after the issuance of the Notice to Proceed for each phase as detailed in the Department's Local Government Guidelines are eligible for Department reimbursement.

C.3 Limits on Federal and State Participation:

a) Federal and/or state funds shall not participate in any cost which is not incurred in conformity with applicable federal and state law, the regulations in 23 C.F.R. and 49 C.F.R., and policies and procedures prescribed by the Federal Highway Administration (FHWA). Federal funds shall not be paid on account of any cost incurred prior to authorization by the FHWA to the Department to proceed with the Project or part thereof involving such cost. (23 CFR 1.9 (a)). If FHWA and/or the Department determines that any amount claimed is not eligible, federal and/or state participation may be approved in the amount determined to be adequately supported. The Department shall notify the Agency in writing citing the reasons why items and amounts are not eligible for federal and/or state participation. Where correctable non-compliance with provisions of law or FHWA requirements exists, federal and/or state funds may be withheld until compliance is obtained. Where non-compliance is not correctable, FHWA and/or the Department may deny participation in Project costs in part or in total.

b) For any amounts determined to be ineligible for federal and/or state reimbursement for which the Department has made payment, the Agency shall promptly reimburse the Department for all such amounts within ninety (90) days of written notice.

c) The Agency agrees to pay all costs of any part of this project which are not eligible for federal and/or state funding. These funds shall be provided upon written request therefore by either (a) check, or (b) deposit to the Local Government Investment Pool, whenever requested.

C.4 Payment Methodology:

In the event that the Agency shall receive federal and/or state funds for any portion of the herein described Project, this provision shall apply.

a) The Agency shall submit invoices, in a form outlined in the Local Government Guidelines with all necessary supporting documentation, prior to any reimbursement of allowable costs. Each invoice shall be accompanied by proof of payment in the form of a canceled check or other means acceptable to the Department.

b) The payment of an invoice by the Department shall not prejudice the Department's right to object to or question any invoice or matter in relation thereto. Such payment by the Department shall neither be construed as acceptance of any part of the work or service provided nor as final approval of any of the costs invoiced therein. The Agency's invoice shall be subject to reduction for amounts included in any invoice or payment theretofore made which are determined by the Department not to constitute allowable costs. Any payment may be reduced for overpayments or increased for under-payments on subsequent invoices.

c) Should a dispute arise concerning payments due and owing to the Agency under this Agreement, the Department reserves the right to withhold said disputed amounts pending final resolution of the dispute.

C.5 The Department's Obligations:

In the event that the Department is managing all phases of the Project herein described, this provision C.5 does not apply.

a) Subject to other provisions hereof, the Department will honor requests for reimbursement to the Agency in amounts and at times deemed by the Department to be proper to ensure the carrying out of the Project and payment of the eligible

costs. However, notwithstanding any other provision of this Agreement, the Department may elect not to make a payment if:

1) **Misrepresentation:**
The Agency shall have made misrepresentation of a material nature in its application, or any supplement thereto or amendment thereof, or in or with respect to any document or data furnished therewith or pursuant hereto;

2) **Litigation:**

4) **Conflict of Interests:**
There has been any violation of the conflict of interest provisions contained herein in D.16; or

5) **Default:**
The Agency has been determined by the Department to be in default under any of the provisions of the Agreement.

C.6 Final Invoices:

In the event that the Agency shall receive federal and/or state funds for any portion of the herein described Project, this provision shall apply.

a) The Agency must submit the final invoice on the Project to the Department within one hundred twenty (120) days after the completion of the Project. Invoices submitted after the one hundred twenty (120) day time period may not be paid.

C.7 Offset:

In the event that the Agency shall receive federal and/or state funds for any portion of the herein described Project, this provision shall apply.

a) If, after Project completion, any claim is made by the Department resulting from an audit or for work or services performed pursuant to this Agreement, the Department may offset such amount from payments due for work or services done under any agreement which it has with the Agency owing such amount if, upon demand, payment of the amount is not made within sixty (60) days to the Department.

Offsetting any amount pursuant to this section shall not be considered a breach of agreement by the Department.

D.2 General Compliance with Federal, State, and Local Law:

a) The Agency is assumed to be familiar with and observe and comply with those Federal, State, and local laws, ordinances, and regulations in any manner affecting the conduct of the work and those instructions and prohibitive orders issued by the State and Federal Government regarding fortifications, military and naval establishments and other areas. The Agency shall observe and comply with those laws, ordinances, regulations, instructions, and orders in effect as of the date of this Agreement.

b) The parties hereby agree that failure of the Agency to comply with this provision shall constitute a material breach of this Agreement and subject the Agency to the repayment of all damages suffered by the State and/or the Department as a result of said breach.

D.3 State Law:

a) Nothing in the Agreement shall require the Agency to observe or enforce compliance with any provision thereof, perform any other act or do any other thing in contravention of any applicable state law, provided, that if any of the provisions of the Agreement violate any applicable state law, the Agency will at once notify the Department in writing in order that appropriate changes and modifications may be

Said termination shall not be deemed a breach of agreement by the Department. Upon receipt of the written notice, the Agency shall cease all work associated with the Agreement. Should such an event occur, the Agency shall be entitled to compensation for all satisfactory and authorized services completed as of the termination date. Upon such termination, the Agency shall have no right to recover from the Department any actual, general, special, incidental, consequential, or any other damages whatsoever of any description or amount.

D.6 Rights and Remedies Not Waived:

a) In no event shall the making by the Department of any payment to the Agency constitute or be construed as a waiver by the Department of any breach of covenant or any default which may then exist on the part of the Agency and the making of such payment by the Department, while any such breach or default shall exist, shall in no way impair or prejudice any right or remedy available to the Department with respect to such breach or default.

b) Nothing in this agreement shall be construed to limit the Department's right at any time to enter upon its highway right-of-way, including the area occupied by the Project, for the purpose of maintaining or reconstructing its highway facilities.

D.7 Department and Agency Not Obligated to Third Parties:

a) The Department and Agency shall not be obligated hereunder to any party other than the parties to this Agreement.

D.8 Independent Contractor:

a) The parties hereto, in the performance of this Agreement, shall not act as agents, employees, partners, joint ventures, or associates of one another. It is expressly acknowledged by the parties hereto that such parties are independent contracting entities and that nothing in this Agreement shall be construed to create a

principal/agent relationship or to allow either to exercise control or direction over the manner or method by which the other transacts its business affairs or provides its usual services. The employees or agents of one party shall not be deemed or construed to be the employees or agents of the other party for any purpose whatsoever.

b) In the event that the Department is made responsible for the Construction phase in section B.1.(a) of this Agreement and to the extent that the Department is responsible for accomplishing the construction of the project, the Department will notify the Agency when Construction phase of the project has been completed; provided however, that failure to notify the Agency shall not relieve the Agency of its maintenance responsibilities.

D.10 Disadvantaged Business Enterprise (DBE) Policy and Obligation:

In the event that the herein-described project is funded with federal funds, the following shall apply:

a) **DBE Policy:**
It is the policy of the Department that Disadvantaged Business Enterprises, as defined in 49 C.F.R., Part 26, as amended, shall have the opportunity to participate in the performance of agreements financed in whole or in part with Department funds under this Agreement. b) **DBE Obligation:**
The Agency and its Contractors agree to ensure that Disadvantaged Business

Enterprises, as defined in applicable federal and state regulations, have the opportunity to participate in the performance of agreements and this Agreement. In this regard, all recipients and Contractors shall take all necessary and reasonable steps in accordance with applicable federal and state regulations, to ensure that the Disadvantaged Business Enterprises have the opportunity to compete for and perform agreements. Covered transactions include submitting a bid or proposal, entering into an agreement, or participating at any level as a subContractor.

D.12 Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion (applies to federal aid projects):

a) **Instructions for Certification - Primary Covered Transactions:**

By signing and submitting this Agreement, the Agency is providing the certification set out below.

1) The inability of a person to provide the certification set out below will not necessarily result in denial of participation in this covered transaction. The Agency shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the Department's determination whether to enter into this transaction. However, failure of the Agency to furnish a certification or an explanation shall disqualify such a person from participation in this transaction.

2) The certification in this clause is a material representation of fact upon which reliance was placed when the Department determined to enter into this transaction. If it is later determined that the Agency knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the Department may terminate this transaction for cause or default.

3) The Agency shall provide immediate written notice to the Department if at any time the Agency learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

4) The terms "covered transaction," "debarred," "suspended," "ineligible," "lower tier covered transaction," "participant," "person," "primary covered transaction," "principal," "proposal," and "voluntarily excluded," as used in this clause, have the meanings set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. You may contact the Department for assistance in obtaining a copy of those regulations.

5) The Agency agrees by entering into this Agreement that it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the Department.

6) The Agency further agrees by entering into this Agreement that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction," provided by the Department, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

7) An Agency may rely upon a certification of a prospective participant in a lower tier covered transaction that is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Non-procurement portion of the "Lists of Parties Excluded From Federal Procurement or Non-procurement Programs" (Non-procurement List) which is compiled by the General Services Administration.

8) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

9) Except for transactions authorized under these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the Department may terminate this transaction for cause or default.

b) Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion--Primary Covered Transactions:

The prospective participant in a covered transaction certifies to the best of its knowledge and belief, that it and its principals:

1) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal, State or local department or agency;

2) Have not within a 3-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or agreement under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

3) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in this certification; and

4) Have not within a 3-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.

5) Where the prospective participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

D.13 Equal Employment Opportunity:

a) In connection with the performance of any Project, the Agency shall not discriminate against any employee or applicant for employment because of race, age, religion, color, sex, national origin, disability or marital status. The Agency will take affirmative action to ensure that applicants are employed and that employees are treated during employment without regard to their race, age, religion, color, gender, national origin, disability or marital status. Such action shall include, but not be limited to, the following: employment upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship.

b) The Agency shall insert the foregoing provision in all agreements modified only to show the particular contractual relationship in all its agreements in connection with the development of operation of the Project, except agreements for the standard commercial supplies or raw materials, and shall require all such Contractors to insert a similar provision in all subcontracts, except subcontracts for standard commercial supplies or raw materials. c) The Agency shall require that the language of this certification be included in the award documents for all sub-awards at all tiers (including sub-grants, subcontracts, and agreements under grants, loans, and cooperative agreements) and that all sub-recipients of federally appropriated funds shall certify and disclose accordingly.

D.19 Records:

a) The Agency shall maintain documentation for all charges against the Department under this Agreement. All costs charged to the Project, including any approved services contributed by the Agency or others, shall be supported by properly executed payrolls, time records, invoices, agreements or vouchers evidencing in proper detail and in a form acceptable to the Department the nature and propriety of the charges. The books, records, and documents of the Agency, insofar as they relate to work performed or money received under this Agreement, shall be maintained and made available upon request to the Department at all times during the period of this Agreement and for at least three (3) years after final payment is made.

Dear Travis,

The Esri Small Municipal and County Government Enterprise Agreement (SGEA) is a three-year agreement that will grant your organization access to Esri term license software. The EA will be effective on the date executed and will require a firm, three-year commitment.

Based on Esri's work with several organizations similar to yours, we know there is significant potential to apply Geographic Information System (GIS) technology in many operational and technical areas within your organization. For this reason, we believe that your organization will greatly benefit from an Enterprise Agreement (EA).

An EA will provide your organization with numerous benefits including:

- A lower cost per unit for licensed software
- Substantially reduced administrative and procurement expenses
- Complete flexibility to deploy software products when and where needed

The following business terms and conditions will apply:

- All current departments, employees, and in-house contractors of the organization will be eligible to use the software and services included in the EA.

- If your organization wishes to acquire and/or maintain any Esri software during the term of the agreement that is not included in the EA, it may do so separately at the Esri pricing that is generally available for your organization for software and maintenance.

- The organization will establish a single point of contact for orders and deliveries and will be responsible for redistribution to eligible users.

- The organization will establish a Tier 1 support center to field calls from internal users of Esri software. The organization may designate individuals as specified in the EA who may directly contact Esri for Tier 2 technical support.

- The organization will provide an annual report of installed Esri software to Esri.

- Esri software and updates that the organization is licensed to use will be automatically available for downloading.

- The fee and benefits offered in this EA proposal are contingent upon your acceptance of Esri's Small Municipal and County Government EA terms and conditions.

GRESHAM SMITH AND PARTNERS

Scope of Services Addendum 1 for Bear Creek Pike (US 412) and US 31 Intersection Project
City of Columbia, Tennessee

LOCATION & DESCRIPTION

The area of improvement is located at the intersection of US 412 (Bear Creek Pike) and US 31 (Nashville Highway) as shown in the picture below. This project is intended to improve the safety, functionality and overall level of service of the intersection and approaching/departing lanes, improve pedestrian connectivity and mitigate safety concerns contributed to access control for private business driveway in proximity of the intersection.

DESCRIPTION OF ADDITIONAL SERVICES ENGINEERING SERVICES

Gresham Smith has been working on developing right-of-way plans so the City can begin acquiring right-of-way (ROW). Since initiating this right-of-way design, TDOT has changed or revised processes that require additional services that were not included in the original scope and fee for this project. In addition, design elements of the project have changed that required additional designs that were not included in the original fee. The original contract was based on all design being within the existing ROW with no additional ROW or easements to be acquired. The items are detailed below.

A. Coordination with TDOT Local Programs Office for ROW Acquisition $10,000.00

TDOT now requires locals to obtain appraisals, review and appraisals and negotiations for all tracts that require any acquisitions including slope and construction easements instead of allowing the NPP forms to be used. Gresham Smith will coordinate the appraisals, reviews and negotiators documents with TDOT for review and approve to move to the next step in the process.

B. Survey $3,013.00

Additional survey: Additional survey was required to obtain invert elevations on catchbasins and the closed drainage system to extend the project limits further south to Riverside Drive area. Additional survey areas were also needed outside of the original survey boundaries for Advance Auto Parts for drainage and driveway tie ins.

C. Additional Design Not Included in Original Fee $60,000.00

Retaining walls were added to the plans in order to avoid impacts to the stream and parking lots. Retaining wall concepts were added to the plans.

TDOT now requires construction easements to tie driveways back in. The plans will add construction easements around the driveways and add the areas to the acquisition table.

The project originally assumed there would be no ROW acquisition required so exhibits and descriptions were omitted from the fee. Exhibits and descriptions are now required for 9 tracts. In addition, the 9 tracts will be added to the plans sheets detailing the areas and the acquisition table.

Coordination with two developers have been added to the scope. The City has proposed developments for Farm Bureau and for the Avenue at Columbia. Gresham Smith is coordinating design of the roadway project with the developments and modifying the plans to accommodate these developments in the best way possible.

The City requested the southern limit be extended to Riverside Drive and to close one existing entrance on the southern end of the project. Gresham Smith has extended the limits and incorporated the redesign of these side roads/entrances into the plans. This included additional storm drainage analysis that was not originally in the scope.

TDOT recently added the requirement of a Qualified Hydraulic Professional provide an Environmental Boundaries Report for every project. Gresham Smith will need to add these boundaries to the plans and coordinate the areas with TDOT Environmental permitting. The stream known stream on this project will have impacts to it which will require an TDEC ARAP permit be applied for and obtained. Gresham Smith will complete the application for the City and coordinate with TDEC for the permit. Application fees and mitigation fees (if required) will be paid for by the City and are not included in this addendum.

TDOT now requires a Traffic Management Plan (TMP) be completed and submitted with the ROW and Construction plans. Gresham Smith will complete the TMP and coordinate with TDOT for approval.

Gresham Smith is including in this addendum to complete cost estimates at each phase (Preliminary, ROW and Construction) as now required by TDOT Local Programs.

D. NEPA **$14,000.00**

TDOT Environmental requires a NEPA Reevaluation on this project because ROW is not required (ROW includes slope or construction easements.)

A NEPA Reevaluation documentation will be developed to meet Tennessee Department of Transportation (TDOT) and the Federal Highway Administration (FHWA) requirements as outlined in FHWA Technical Advisory T6640.8A. The document will also meet TDOT's Local Governmental Guidelines.

The scope of work includes required coordination with state and federal agencies to complete the NEPA Reevaluation document. A request to initiate coordination will be sent to the following TDOT Technical Sections: Cultural Resources, Air Quality/Noise, Hazardous Materials, and Ecology.

Cultural Resources – Cultural Resources includes Archaeology, Historic Architecture, and Native American Coordination. Previous coordination for this project with the Archaeology and Historic Architecture Section indicated that the project would not adversely affect any resources in the area. Coordination will take place with the Sections to determine if their previous findings are still valid. It may be necessary to initiate new Native American Coordination, Gresham Smith will provide TDOT with information to coordinate with the Native American Tribes.

Air Quality/Noise – Gresham Smith will coordinate with the Air Quality and Noise Section as required for the NEPA Reevaluation.

Hazardous Materials – Gresham Smith will conduct a file review and database search for the project pertaining to Hazardous Materials. This search will include database reviews of Google Earth imagery, EPA National Priorities List, EPA EnviroMapper, TDEC Registered Underground Storage Tanks Data and Reports, TDEC Division of Water Resources Public Data Viewer, and Oil and Gas Wells database. Based on the reviews, Gresham Smith will develop a memo of findings to submit to the TDOT Hazardous Materials Section for review.

Ecology - Since approval of the Programmatic Categorical Exclusion (PCE) in August 2020, TDOT Ecology Section is now requiring an Environmental Boundaries Report (EBR) for Local Programs projects. This EBR should indicate that a Qualified Hydrologic Professional (QHP) has evaluated the entire project footprint along with maps that document features and feature locations within or near the project limits. The Gresham Smith team will prepare the EBR and submit to TDOT Ecology Section for review by TDOT, the Tennessee Department of Environment and Conservation (TDEC), Tennessee Wildlife Resources Agency (TWRA), and United States Fish and Wildlife Service (USFWS).

After coordination responses have been received, Gresham Smith will prepare the NEPA Reevaluation document with appendices documenting that the project meets the criteria outlined in 23CFR771.117(c).

The NEPA document will be submitted to TDOT for review, comment and approval.

E. Ecology Study **$3,100.00**

TDOT requested an ecology study be completed for the stream as part of the original NEPA document.

F. Additional Utility Coordination Services **$10,000.00**

TDOT began requiring an early coordination process with utilities. They require a general location map and letter be sent to all utilities within the county to determine if they have utilities within the general area. The utilities have 60 days to respond. If no response is obtained from a utility a 10 day letter must be submitted notifying them they have 10 days to respond to the original request.

G. Appraisals **$40,500.00**

Boozer and Associates has submitted a proposal for appraisals based on the current ROW plans. Nine (9) tracts are currently shown to have acquisition. The fee for appraisals is $4,500 per tract based on the current design. Any and all updates to the appraisal reports as a result of plans changes, along with meetings/depositions/testimony/conferences regarding litigation of the property, shall be billed at a rate of $300 per hour. This includes in-person and virtual project status meetings, which will have a minimum charge of $300 per meeting regardless of actual time spent in meeting. No additional fee for these services are included with this addendum.

H. Appraisal Reviews **$26,100.00**

Button and Associates has submitted a proposal for appraisal reviews based on the current ROW plans. Nine (9) tracts are currently shown to have acquisition. The fee for appraisal reviews is $2,900 per tract based on the current design.

I. Negotiations **$13,275.00**

R&D Enterprises has submitted a proposal for negotiations based on the current ROW plans. Nine (9) tracts are currently shown to have acquisition. The fee for negotiations is $1,475 per tract based on the current design.
The fee as listed includes:

1. Property Owner Verification
2. Prepare documents to deliver to the property owners and singed documents to the Agency.
3. Contact property owners, meet and explain how the property is being affected.
4. Deliver Acquisition Offer and/or donation per Tract, address property owner concerns.
5. Complete negotiations to a satisfactory solution for the property owner and the City.
6. Follow TDOT Guidelines for FHWA Uniform Act 49 CFR Part 24, and Local Public Agency Guidelines.

J. Geotechnical Study for Retaining Walls **$27,500.00**

The two retaining walls require a geotechnical investigation. GEOServices has provided a fee to provide this investigation and study.

One retaining wall is approximately 85' and one is 685' with a maximum height of 16'. The purpose of the geotechnical exploration is to explore subsurface conditions and provide geotechnical recommendations for the proposed retaining walls. The assessment of site environmental conditions for the presence of pollutants in the soil, rock, or ground water of the site is beyond the proposed scope of this exploration.

GEOServices proposes to explore the site subsurface conditions by drilling seven (7) soil test borings along the RW1 alignment and two (2) soil test borings along the RW2 alignment. This number and spacing of borings will generally provide one boring approximately every 100 feet along the retaining wall alignments.

Clearing to access the borings and allow drilling in the wooded and overgrown areas will be required. GEOServices have included a fee for the use of a subcontractor operated bulldozer or excavator to clear paths and form relatively level pads at the boring locations. A member of their staff can be present to direct the subcontractor to the boring locations during the clearing. They have assumed one (1) day of clearing to access the borings.

Traffic control will likely be required for access during the clearing and soil test boring work along the shoulder of the highway. GEOServices will obtain the services of a subcontractor to perform the required traffic control for these locations. They have assumed up to three (3) days of traffic control will be required.

The borings will be drilled to depths of 20 to 30 feet below the existing ground surface. The borings will be drilled to the assigned termination depths, or auger refusal, whichever is first encountered. The number and depth of proposed borings will combine to produce a total of 200 linear feet of drilling.

Standard Penetration Tests (SPT) will be performed in the borings on 2½ foot intervals in the upper 10 feet and at 5 foot intervals thereafter in general accordance with ASTM D1586. Rock coring, to explore auger refusal materials, is not included in their scope of services. Relatively undisturbed (Shelby tube) samples of the soil will be obtained from

selected intervals of the cohesive soil at the site, if possible, in general accordance with ASTM D1587. The borings will be backfilled with soil cuttings prior to leaving the site.

The soil samples will be returned to GEOServices laboratory where they will be reviewed by a geotechnical engineer or staff professional to visually classify the soils and to select representative samples for testing. Laboratory testing of selected soil samples may include natural moisture content, grain size, Atterberg limits and unconfined compressive strength tests.

Their services will culminate with a written report prepared by a geotechnical engineer or project staff professional under the review of a senior engineer licensed in Tennessee. The report will provide a summary of the subsurface conditions encountered in the test borings and present geotechnical recommendations for design and construction of the retaining wall foundation system. The report will include:

Figures showing the site location and approximate boring locations.

- The laboratory test results.
- The graphical boring logs showing vertical sections, including the boring number and the visual-manual soil classification according to the Unified Soil Classification System identified with the appropriate letter symbol for each soil type.
- A description of the existing site surface conditions and summary of the subsurface conditions encountered in the borings.
- A discussion of the site geology and karst potential.
- The soil nature and origin, including changes resulting from man's activities and stream erosion/deposition.
- Recommendations for soil related construction including site preparation, fill construction, and ground water control.
- Earthwork construction criteria, including the suitability of the site soils for reuse as fill, subgrade support conditions, stabilization recommendations, and fill compaction criteria.
- Unsatisfactory soil conditions and recommended remedial measures.
- A discussion of anticipated difficult excavation.
- Recommendations for the design and construction of shallow foundations, including allowable soil bearing pressure, minimum dimensions and embedment and estimated settlements.
- Recommended lateral earth pressures and backfill materials for the design of below grade walls.
- Recommended seismic site class definition from the AASHTO LRFD Bridge Design Specifications, Fifth Edition, based on the SPT N-values from the soil test borings.

Additional Services:

Specific items **not** included in the scope but may be completed at the request of the owner for additional fees include:

- Title Searches
- Relocations including sign relocations

- Additional appraisals, reviews or negotiations
- Permit fees

A. Water

"A water availability should be submitted. The availability of capacity to serve is based on a determination by the Fire Marshal of fire flow requirements and the information submitted on the Water Service Availability Request application. A flow diagram and instructions on how to submit the water availability request are available on the CPWS website or at the City Fire Marshal's website"

B. Sewer

Columbia Wastewater approves.

C. Police

The jurisdiction of the Columbia Police Department will be extended to the areas annexed immediately upon the effective date of annexation.

D. Fire and Rescue

Additional Potential Concerns: Road width and integrity. The safety of citizens and first responder compromised by the width and integrity of the roadway raises additional concerns. Ideally, Fire Department vehicles should have enough road space to maneuver through traffic without putting anyone at risk. In relation to road space, Cul-de-sacs should be constructed to 96' ft. diameter, allowing for fire apparatus to safely turn around and navigate without obstruction. Additionally, the roadway should be wide enough to allow citizens' vehicles to yield the right of way safely.

Scope of Services:

The City of Columbia Fire & Rescue Department provides an array of services to the citizens and visitors of the City of Columbia. These services include but may not be

limited to non-emergency services such as fire prevention and codes enforcement, pre-incident planning, public education programs, smoke alarm check/replacement, emergency management preparedness, and emergency services such as fire suppression, heavy rescue, emergency medical first response, and hazardous materials response. The City of Columbia Fire Department currently holds an Insurance Service Organization (ISO) Class 1 rating.

1. Columbia Fire & Rescue strives to provide all services in a timely, courteous, and professional manner. Due to the nature of emergency services, we strive to arrive at the incident scene as quickly as possible but without posing additional dangers to the residents/visitors we meet while responding to your location.

2. **Infrastructure**: The infrastructure put in place is like this foundation of your development. If the infrastructure is designed and constructed with the present needs and future plans in mind, your development will be prepared for the future.

   Water: Columbia Fire & Rescue requires that there be sufficient water provided through the municipal water system to meet the needed fire flow requirements for your facility. These flows are calculated by the Fire Marshal. These flows are based on many factors dealing with your buildings' construction type, fire load in the building, square footage, and etc. If you install fire sprinkler systems in your facilities, Columbia Fire & Rescue can drastically reduce fire flow requirements.

   Roadway and Bridges: Columbia Fire & Rescue serves the residents and visitors of our jurisdiction by utilizing highly trained firefighters and modern fire apparatus. A minimum response to a structure fire in your development will be four fire apparatus. One of the fire apparatus that will respond to your development will be a ladder truck with a gross vehicle weight rating of approximately 80,000 pounds. Roadways and bridges must be designed and constructed not only with light vehicle traffic in mind but with the emergency service vehicles that will be servicing your department.

   Damage Free Property Access: Columbia Fire & Rescue requires all gates automatic or manual that will be or may be locked to be equipped with Knox Rapid Entry system. You can research this product at www.knoxbox.com or your gate vendor will be familiar with the product. Our department would also be happy to work with you to find what Knox Rapid Entry product is best suited for your application.

   Damage Free Home/Facility Access: Currently, Columbia Fire & Rescue does not require residential occupancies to be equipped with the Knox Rapid Entry system. However, this product is a very wise

investment for your future development. The Knox Rapid Entry System products allow homes to be secured but also allow the Columbia Fire & Rescue Department access to your property and /or homes without any delay or property damage. The system has an armored key lock safe recess mounted to the exterior of the homes with the key to the residence inside. Firefighters access the residence key during an emergency to gain entry into the home without causing any property damage. Again, our department would be happy to provide you with information and education on this program and its many positive attributes.

3. **Emergency Response to Your Location:** The proposed annex will be located on 22 acre portion of Tax Map 88 Parcel 33.07 off Estes Lane in Columbia, Tennessee. This location is approximately 3.4 mile from Columbia Fire Station #2 located at 711 Lion Parkway, 3.9 miles from Columbia Fire Station #4 located at 5040 Trotwood Avenue, 4.9 miles from Fire Station #1 located at 1000 South Garden in downtown Columbia. These distances are used to calculate an estimated response time to your development for the different levels of emergency response that may be needed at your facilities.

4. **Medical Emergency Response:** Columbia Fire & Rescue normally responds a minimum of one fire apparatus from Station #2 to service your location for a medical emergency. From the time you dial 911 until the fire department will arrive at your location will be within 5.00 minutes. Should your property experience a mass casualty incident where additional fire apparatus/firefighters would need to respond, then Fire Station #2 could send an additional unit and arrive on-scene within 5.50 minutes of your 911 call.

5. **Fire Incident Response:** The Columbia Fire & Rescue Department recommends a multi-faceted fire suppression approach. First, future homes should be constructed to meet or exceed all applicable fire and life safety codes. Secondly, even if not required by building, fire, or life safety codes, we encourage the installation and use of fire sprinklers in future homes.

6. Columbia Fire & Rescue's normal fire incident response to a single family residential development is three fire apparatus with a minimum 15 firefighters and 1 Chief Officer. Response times will be similar to the times estimated in the emergency medical response section. Your first fire apparatus should be on-scene within approximately 5.00 minutes, the second fire apparatus should be on-scene within 5.5 0minutes, and the third/fourth apparatus should be on-scene within 6.0 minutes. Due to OSHA standards that require at least four firefighters to arrive on-scene

prior to initiating an interior fire attack and Columbia Fire & Rescue's minimum staffing policy, it could take the 5.50 minutes to get the minimum number of firefighters to the scene to begin an interior fire attack.

7. In summary, the members of the Columbia Fire & Rescue consider it an honor to serve the residents and visitors in our community each and every day. When an emergency occurs, time is our worst enemy. Columbia firefighters train to reduce every second while not posing any additional undue risk to firefighters and/or the public when responding to or working at an emergency incident. The times estimated in the referenced examples are a combination of averages and estimations. Our department has very little data to support incident responses to your location. The time estimations are based on the fire companies being at their regular station, time it takes for Maury 911 to process a 911 call, the time it takes for Columbia firefighters to board the apparatus and leave the station, and the travel time from the station to your location is an estimate based on road miles, probable traffic conditions, and road conditions. You can see by the examples referenced above that it will take time for Columbia Fire & Rescue to receive your call for help and then respond to your location. The roadways have considerable driveway/cross street connections, hills, curves, and reduced speed zones that contribute to a long response time for fire apparatus to arrive.

Wastewater Treatment Annexation

Project #:	23-0245	Location:	Map 88 Parcel 33.01
Applicant:	City of Columbia	Case Type(s):	Annexation Default Zoning
Staff Planner:	Kevin C. McCarthy, AICP	Proposed Use:	Utility Facility

PROJECT SUMMARY

The applicant requests annexation of 22 acres of land with the default zoning of CD-3L (Neighborhood Large Lot Character District). City Council has previously approved plans for expansion of the City's wastewater treatment plant and appropriated funds for the acquisition of land and capital costs. Property immediately adjacent to the existing treatment facility will accommodate the expansion. The expansion site is currently located outside of corporate limits of Columbia, in unincorporated Maury County. The Wastewater Department requests annexation of the subject site under the default zoning of CD-3L.

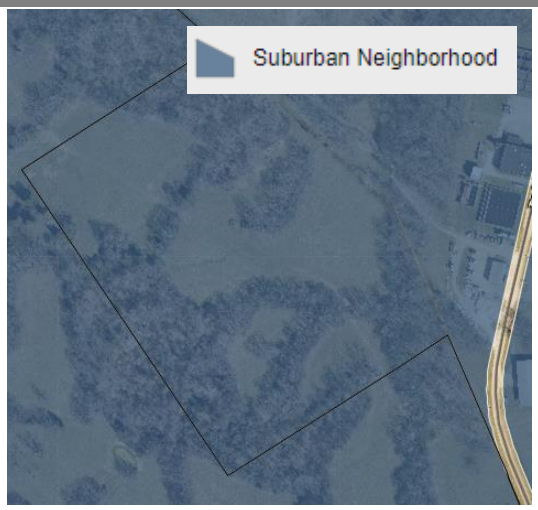

- The DRC reviewed this proposal at its July 2023 meeting.
- Development Services staff met with the Wastewater Department on July 19th to discuss the process of annexation.
- The request is consistent with the Connect Columbia, the City's comprehensive plan.
- CD-3L is an appropriate zoning designation for the subject site.
- The Planning Commission is a **recommending body** for annexation requests.
- Templates are provided at the end of the report to assist the Planning Commission in crafting properly formatted motions.

North	Suburban Neighborhood	SD-LI	Utility Facility
South	Suburban Neighborhood	Unincorporated	Single-Family
East	Suburban Neighborhood	SD-LI	Utility Facility
West	Suburban Neighborhood	Unincorporated	Single-Family

The subject site is located inside the Urban Growth Boundary (UGB) and immediately outside the corporate limits of Columbia. It is adjacent to the existing wastewater treatment facility. The property is bounded on the north and west by other portions of the facility. Existing large-lot residential property borders the property on the south and east. The future land use of the subject property and all adjacent properties is Suburban Neighborhood.

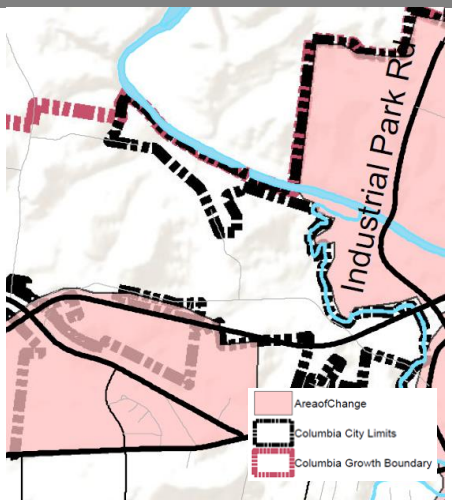

CONSISTENCY WITH CONNECT COLUMBIA

Suburban Neighborhood: The future land use of the subject site is Suburban Neighborhood. The Character Area is conducive to residential development and neighborhoods, with limited, intermixed and compatible civic uses (Connect Columbia, p. 22). The Future Land Use Plan indicates that "the general development pattern is defined by a single use activity on individual lots" (Connect Columbia, p. 22). Green space is largely incorporated on individual lots; neighborhood and community parks should be located within neighborhoods to enhance the quality of life. Development should emphasize connectivity and housing diversity (Connect Columbia, p. 23). The Character Area Matrix from page twenty-two of the Future Land Use Plan (excerpted below) is a guide to approving requests for zoning map amendments and Planned Unit Developments. The future land use classification is implemented by the CD-3L and CD-3 character districts, as well as PUDs.

CHARACTER AREA MATRIX				
	Development Pattern	**Zoning Category and Uses**	**Infrastructure**	**Design Standard**
SUBURBAN NEIGHBORHOOD	**Is the property in an Area of Change?** **No:** The development pattern is established. Changes to overall character of the area should rarely occur. **Yes:** The development pattern is evolving. Changes to the area are likely as development occurs. New development should respect both the natural environment and blend with existing, surrounding neighborhood assets.	**Residential Uses Zoning Category:** Low Density Residential District and Medium Residential. **Public and Civic Uses Zoning Category:** Religious Facilities, Government Facilities (low impact), and Educational Facilities.	**Not in an Area of Change:** Limited new services, with mostly in-fill enhancements to existing infrastructure. **Within an Area of Change:** Extensions to transportation, water, sewer, and other services should be expected. New service or extensive redevelopment of existing services should be vetted and reviewed by Planning Commission and City Council as a primary element of approval.	Scale: New dwellings and structures should be compatible with the established character of the area. Architecture: New developments should include a mix of architectural styles. Residential garages, if front-facing, should be recessed from the front façade of the structure. Civic use should respect the residential character, while providing architectural interest.

AREA OF CHANGE

The subject site **is not located** in an Area of Change (Connect Columbia Map 3). In 2017 the Planning Commission determined that the development pattern was established. Changes to overall character of the area should rarely occur. The designation does not necessarily mean that any particular development proposal is inconsistent with Connect Columbia. It does mean that the Planning Commission may pause to ensure the context of the area surrounding the subject property is considered fully in the review process. (Connect Columbia p. 14).

CONFORMITY WITH ZONING ORDINANCE

The applicant provided a concept plan with the request for annexation. The plan depicts a utility facility under a CD-3L zoning designation.

- Newly annexed properties shall have an initial zoning of CD-3L unless the applicant requests and the City Council approves, a different zoning classification consistent with Connect Columbia.
- The Zoning Ordinance permits utility facilities in every district (Table 4.3.9.A-1) subject to limited use standards listed in section **4.3.9.E**.

REVIEW PROCESS

The Development Review Committee evaluated the proposed Annexation at its July 2023 meeting, as directed by section **8.3.7** of the Zoning Ordinance. Technical comments are provided in the agenda package.

Section **8.5.19** of the Zoning Ordinance directs the Planning Commission to review and make a recommendation on all proposed changes to the Official Zoning Map. The Zoning Ordinance contains an apparent contradiction related to the zoning of newly annexed territory. Section **2.5** of the Ordinance indicates that "newly annexed properties shall have an initial zoning of CD-3L" unless that applicant makes a concurrent request for rezoning to any other district. Section **8.5.19.M** provides that "[w]henever new territory is added to the zoning jurisdiction of the City by any means, the Planning Commission shall recommend to the City Council appropriate zoning;" **§ 8.5.19.M** further indicates that "the area shall be temporarily unclassified" until City Council establishes the appropriate zoning.

The Planning Commission is recommending body for annexations and rezoning under **§ 8.3.3.B.3** of the Zoning Ordinance.

Section **8.5.19.H.4** of the Zoning Ordinance establishes the review criteria for approval of all changes to the Official Zoning Map:

a. The Rezoning is consistent and not in conflict with the Comprehensive Plan or other applicable approved local plans for the area;

b. It has been determined that the legal purposes for which zoning exists, as set forth in Section 1.5 [, are not contravened]; [1]

[1] Ordinance 4400 contains this incomplete sentence. The previous ordinance contained a nearly identical list of criteria at § 3.18.7.B. The corresponding criterion in Ordinance 3638 read "the legal purposes for which zoning exists are not contravened."

c. *It has been determined that there will be no adverse effect upon Adjoining property owners unless such effect can be justified by the overwhelming public good or welfare;*
d. *It has been determined that no one property owner or small group of property owners will benefit materially from the change to the detriment of the general public;*
e. *It has been determined that conditions affecting the area have changed to a sufficient to warrant the Zoning Map Amendment or that the existing zoning of the property was the result of a mistake;*
f. *It has been determined that adequate school, road, parks, wastewater treatment, water supply, and stormwater drainage facilities are available*

SUMMARY OF DEVELOPMENT REVIEW COMMITTEE COMMENTS

The DRC reviewed this proposal at its July 2023 meeting. A full list of comments, and the applicant's responses, is provided in the agenda packet. Some key comments are noted below.

- **Planning** indicated that the eventual utility facility must conform to the limited use standards at **§ 4.3.9.E.6(a-k)** of the Zoning Ordinance.
- The **Office of the Fire Marshal** and Columbia Water System's (**CPWS**) consultant (Inflow) noted that the applicant would need to confirm water availability.
- Columbia Power (**CPWS**) noted that it is able to serve the site.

COMMENTARY FROM PROFESSIONAL PLANNING STAFF

CD-3L is an appropriate zoning designation for the subject site. As mentioned above, the Zoning Ordinance contains an apparent contradiction related to the zoning of newly annexed territory. Fortunately, Planning Commission can leave the apparent contradiction unresolved in this case. The CD-3L zoning is consistent with the Future Land Use classification and the Ordinance permits the intended use in all districts. The Planning Commission may simply recommend annexation with a zoning of CD-3L, thereby conforming to both **§ 2.5** and **§ 8.5.19.M**.

Approval of the requested annexation and rezoning is appropriate. The request satisfies the criteria of the Ordinance for a change to the Official Zoning Map, as described below. The only outstanding technical comment is that, prior to an official public hearing, CPWS will need to provide written verification that adequate water will be available at the site. Actual development of the site will be subject to subsequent administrative reviews. The applicable standards of the Ordinance will mitigate any negative impacts on surrounding neighbors.

The requested CD-3L zoning is consistent with Connect Columbia. The subject site's future land use classification is Suburban Neighborhood. The future land use classification is implemented

by the CD-3L and CD-3 character districts, as well as PUDs. The Zoning Ordinance allows the intended use in a CD-3L district.

Annexation and rezoning of the subject property do not contravene the purposes of zoning. In particular, annexation and development of the subject site will provide for the beneficial use of property through ought Columbia by improving wastewater treatment capacity.

There are no known adverse impacts on surrounding property owners. The only adjacent property owner is the previous owner of the property. No adverse impacts to other properties are known at this time. In the event that the proposed annexation and rezoning does impact other properties, approval, combined with efforts to mitigate the impacts, may be justified by the overwhelming public good of the proposed wastewater facility.

The proposed annexation and rezoning will benefit the city as a whole. No one property owner or small group of property owners will benefit materially from the change to the detriment of the general public.

Conditions affecting the area have changed to a sufficient to warrant the Zoning Map Amendment. The City has previously determined that an expansion of wastewater treatment capacity at the subject site is necessary in order to maintain the level of service for current and future residents. Annexation of the subject property is a condition precedent for expansion of the wastewater facility.

There will be sufficient infrastructure to support the property. The proposed use of the property is itself an expansion of wastewater infrastructure. Although the subject site does not presently have adequate water supply for fire protection, Columbia Power and Water intends to extend service to the site sufficient to provide fire flow and water for plant operations.

Update to Development Services staff report:

- The applicant initially requested to amend the comprehensive plan to change the future land use classification of the subject property from Urban Neighborhood to Suburban Neighborhood in order to rezone the property from CD-3L to CD-3.
- The Planning Commission considered the applicant's request at its June 2023 meeting. The Commission discussed the appropriateness of amending the future land use classification with the applicant and planning staff . The commission deferred action to its July meeting in order to allow the applicant to revise the request.
- The applicant revised the request and the concept plan. The revised application does not include the request to amend the comprehensive plan. The requested rezoning has been updated to CD-4, which is consistent with the comprehensive plan.
- The Planning Commission recommended approval at its July 2023 meeting.

SUMMARY OF REQUEST: **Comprehensive Plan Amendment & Zoning Map Amendment (CD-3L to CD-3)**

The applicant requests to rezone a 1.02-acre parcel located on the east side of East End Street from CD-3L (Neighborhood-Large Lot) to CD-3 (Neighborhood Character District). Both the current and requested zoning designations are primarily residential in character. The Zoning Ordinance permits two dwelling units per acre in CD-3L and four dwelling units per acre in CD-3. In support of the requested rezoning, the applicant provided a concept plan which depicts the division of the property into three single family lots.

The requested CD-3 zoning is not consistent with the Future Land Use classification of Urban Neighborhood. Consequently, the applicant also requests to amend the Future Land Use Map (FLUM) of Connect Columbia, the City's comprehensive plan, from Urban Neighborhood to Suburban Neighborhood.

This report summarizes staff analysis of the FLUM amendment as well as the consistency, conformity, and compatibility of the proposed rezoning.

CONSISTENCY with the **COMPREHENSIVE PLAN:**	**PROPERTY HISTORY:**
Urban Neighborhood: The future land use of the subject property is Urban Neighborhood. The classification is characterized by residential development and neighborhoods, with intermixed and compatible civic uses. The requested CD-3 zoning designation is not consistent with the Urban Neighborhood future land use classification. The applicant requests to amend the FLUM to designate the property Suburban Neighborhood. The requested CD-3 zoning is consistent with the Suburban Neighborhood future land use classification.	The subject property is currently vacant. Previously existing structures were demolished in 2022. The current owner acquired the property in 2022. This is the first development proposal on record for this property.

CONFORMITY to the ZONING ORDINANCE:

As required by § 8.5.19.F.3 of the Zoning Ordinance, the applicants provided a concept plan (i.e. "Sketch Development Plan") demonstrating that it is possible to develop the property in conformity with the standards applicable to the requested zoning designation. Any development plan/preliminary plat must comply with Zoning Ordinance 4400, adopted on July 14th, 2022. This request for rezoning simply establishes entitlements under the zoning ordinance, not a vested right to develop the site as depicted in the concept plan.

Zoning Ordinance Referenced: Proposed CD-3 Character District (Table 4.3.1-C, p. 66-67)

The Ordinance describes the CD-3 Neighborhood District as a medium density single-family detached residential area in which houses form the predominant building type, although limited use of duplexes is permitted. Homes are separated from the street and each other by minimum setbacks. Thoroughfares form medium-sized blocks, may have curbs, and may include sidewalks and street trees. The district permits a maximum gross density of four dwelling units per acre. CD-3 is an appropriate implementing district for the Suburban Neighborhood future land use classification. It is not an appropriate implementing zone for the subject property's current future land use classification: Urban Neighborhood. The CD-4 General Urban, and CD-5 Urban Center districts implement the Urban Neighborhood future land use classification.

Lot/Building Site Width (Table 4.3.1-C, p. 68)

- Minimum lot width of 65' (40' if alley-loaded garage is provided; 100' for a duplex)
- Frontage buildout not regulated
- No less than 80% of lots must enfront a vehicular thoroughfare or internal drive conforming to the standards of the Ordinance and Subdivision Regulation
- Up to ≤ 20% of the lots may Enfront a pedestrian path, passage, pedestrian walkway if such Lots have legal and physical vehicular access to a vehicular thoroughfare via driveway or Easement

Lot Standards/ Principle Buildings (Table 4.3.1-C, p. 68)

- 25' min front setback
- 8' min side setback

- 25’ min rear setback (measured from the rear property line or centerline of rear alley as applicable)

Staff Comment:

The concept plan depicts three 70’ wide single-family lots enfronting East End Street, yielding a gross density of 2.94 dwelling units per acre. The requested CD-3 zoning is inconsistent with Connect Columbia. The comprehensive plan calls for the future development of the site at higher density with more prescriptive design standards. The CD-3 zoning is consistent with the requested Suburban Neighborhood future land use classification. However, the requested amendment to the FLUM would create an island of Suburban Neighborhood surrounded by Urban Neighborhood. Over time, if the plan is fully implemented, surrounding properties will transition to CD-4 and CD-5 zoning, leaving the subject parcel as an incongruous spot on the zoning map.

If a Preliminary Plat is submitted for Planning Commission review in the future, staff will prepare a detailed analysis of whether it conforms to the standards of the Ordinance. Subsequent proposals to construct homes on the site would be subject to administrative review and approval.

Zoning Map Amendment:

Staff reviewed the request for a zoning map amendment for conformity with the standards listed in the City of Columbia Zoning Ordinance. The relevant provisions of the Ordinance are listed below, followed by staff analysis.

Staff’s review of Section 8.5.19.H.4 in relation to this request finds the following:

a. Whether the Rezoning is consistent and not in conflict with the Comprehensive Plan or other applicable approved local plans for the area;

The subject property has a future land use classification of Urban Neighborhood (Connect Columbia Map 4). The proposed change, from a low-density CD-3L neighborhood large lot character district to a medium-density CD-3 neighborhood character district, is inconsistent with the Suburban Corridor future land use classification (Connect Columbia p.24; Zoning Ordinance Table 3.7.1 p.36; Zoning Ordinance Table 4.3.1-C, p. 66).

If the Planning Commission approves the request FLUM amendment to designate the subject site Suburban Neighborhood, the requested CD-3 zoning will be consistent with Connect Columbia.

The property is not located in an Area of Change (Connect Columbia Map 3), meaning that in 2017-2018, the Planning Commission determined that the development pattern was established and changes to overall character of the area should rarely occur. This does not necessarily mean that the proposed change is inconsistent with Connect

Columbia. However, the plan advises a "pause" and careful review to ensure that the context of the area surrounding the subject property is considered (Connect Columbia p. 14).

b. Whether the legal purposes for which zoning exists, as set forth in Section 1.5[, are not contravened];[1]

All future use of the properties will be required to conform to the standards of the Zoning Ordinance. The standards protect and promote the public health, safety, morals, comfort, convenience, and general welfare of the people and community (§ 1.5.1.A p. 6).

The Planning Commission may determine that the proposed rezoning furthers the other purposes of zoning listed at §§ 1.5.1 and 1.5.2 of the Ordinance.

c. Whether there will be any adverse effect upon adjoining property owners unless such effect can be justified by the overwhelming public good or welfare;

There are no known adverse effects upon adjacent property owners.

d. Whether any one property owner or small group of property owners will benefit materially from the change to the detriment of the general public;

Rezoning the property will likely provide material benefits to the owner. However, any potential detrimental effects on the general public can be mitigated through the standards in the Zoning Ordinance.

e. Whether conditions affecting the area have changed to a sufficient [extent] to warrant the Zoning Map Amendment or that the existing zoning of the property was the result of a mistake;[2]

The proposed change to the zoning map will allow the property owner to add units to the local housing inventory. Planning Commission may determine that demand for housing in the City of Columbia has increased to a sufficient extent to warrant an increase in the area of the city zoned for medium-density residential development. It is within the discretion of the Planning Commission to determine that other circumstances have changed to a sufficient extent to warrant an increase in the area zoned for residential development.

[1] Ordinance 4400 contains this incomplete sentence. The previous ordinance contained a nearly identical list of criteria at § 3.18.7.B. The corresponding criterion in Ordinance 3638 reads "the legal purposes for which zoning exists are not contravened."

[2] The word *extent* was unintentionally omitted in the drafting of Ordinance 4400. The word was present in the corresponding criterion in Ordinance 3638.

f. Whether adequate school, road, parks, wastewater treatment, water supply, and stormwater drainage facilities are available.

Technical comments from public service providers generally indicate that services are in place to support the zoning change.

Comprehensive Plan Amendment /Adoption:

Staff reviewed the requested amendment to the Future Land Use Map under the review standards listed in the City of Columbia Zoning Ordinance. The relevant provisions of the Ordinance are listed below, followed by staff analysis.

Staff's review of Section 8.5.20.F in relation to this request finds the following:

Criteria for Planning Commission Recommendations

The recommendations of the Planning Commission to the City Council shall show that the Planning Commission has studied and considered the proposed Land Use Plan Amendment in relation to the following, where applicable:

1. Whether the proposed change would be consistent with the intent, goals, objectives, policies, guiding principles and programs of all other applicable adopted Land Use Plans;

   The proposed change to the future land use map ***is not consistent with the guiding principles of the adopted land use plan****. Connect Columbia, as adopted in 2018, utilizes the transect model as the guiding principle for organizing land use (Connect Columbia p. 11). The transect model "defines a series or character areas that transition from sparsely populated areas, consisting of farmland, to the dense urban core of a city" (p.10). Accordingly, the future land use element of the plan organizes the City into Character Areas forming a continuum of density and intensity from most rural to most urban. These future land use classifications are implemented through the character districts in the Zoning Ordinance (e.g. CD-3L, CD-3, CD-4). A reduction of intensity on a single parcel near the core of the planning area is inconsistent with this guiding principle. According to the plan, the subject site should remain available for higher intensity development in the future, partly in order to direct growth away from the periphery of the urban growth boundary.*

2. Whether the proposed change would be compatible with the existing land use pattern and designated future land uses;

   The proposed change to the future land use map is consistent with the existing land use

pattern but is inconsistent with the designated future land uses.

3. Whether the proposed change would create substantial adverse impacts in the Adjacent area or the City in general;

   There are no known adverse effects upon adjacent property owners. However, a change to the future land use map could have adverse impacts on the future development of the City in general. Maintaining the Urban Neighborhood classification inside the core of the planning area reserves land for future growth and relieves pressure on annexations and leap-from development.

4. Whether conditions affecting the area have changed to a sufficient extent to warrant the proposed change; and

   The proposed change to the future land use map will reduce the potential future development of the property. The current Urban Neighborhood future land use classification is implemented by the CD-4 and CD-5 zoning districts. Reducing the intensity of future development to Suburban Neighborhood, implemented by CD-3L and CD-3, would effectively reduce the total potential future housing inventory by one unit, and/or eliminate the possibility of developing the site for non-residential uses. Planning Commission may determine that conditions have changed to a sufficient extent that the proposed reduction in the intensity of future development is warranted.

5. Whether the subject parcel is of adequate shape and size to accommodate the proposed change.

   The subject site is just over one acre in size. The property can accommodate development at similar intensities under both the Urban Neighborhood and the Suburban Neighborhood future land use classifications.

AGENDA ITEM TITLE: 2ND CONSIDERATION OF ORDINANCE NO. 4475 (AS AMENDED) - AN ORDINANCE TO AMEND ORDINANCE NO. 4400, THE SAME BEING THE ZONING ORDINANCE OF THE CITY OF COLUMBIA, TENNESSEE BY REZONING MULTIPLE PROPERTIES WITHIN THE CARRIAGE HILLS SUBDIVISION, LOCATED OFF CARTERS CREEK PIKE, FROM CD-3 (NEIGHBORHOOD CHARACTER DISTRICT) TO CD-3L (NEIGHBORHOOD LARGE LOT CHARACTER DISTRICT) - WARD 5

RECOMMENDATION: Forward the applicant's request to approve Ordinance No. 4475 as amended on second consideration.

INFORMATION: The applicant is requesting that the majority of the Carriage Hills Subdivision, approximately 55 lots, be rezoned from CD-3 (Neighborhood Large Lot) to CD-3L (Neighborhood Large Lot Character District). The lots are established in the subdivision and no changes are anticipated. The CD-3L zoning district permits the use of a single-family detached dwelling. There are three existing lots that only have a portion of the property within the city limits. The Planning Commission reviewed this request and recommended a denial, with a vote of five to one, based on Article 8.5.19.H.4.e, Whether conditions affecting the area have changed to a sufficient [extent] to warrant the Zoning Map Amendment or that the existing zoning of the property was the result of a mistake.

AN ORDINANCE TO AMEND ORDINANCE NO. 4400, THE SAME BEING THE ZONING ORDINANCE OF THE CITY OF COLUMBIA, TENNESSEE BY REZONING MULTIPLE PROPERTIES WITHIN THE CARRIAGE HILLS SUBDIVISION, LOCATED OFF CARTERS CREEK PIKE, FROM CD-3 (NEIGHBORHOOD CHARACTER DISTRICT) TO CD-3L (NEIGHBORHOOD LARGE LOT CHARACTER DISTRICT).

BE IT ORDAINED BY THE CITY OF COLUMBIA:

Section 1: That the City of Columbia Zoning Ordinance, the same being Ordinance No. 4400, and the zoning maps therein adopted be, and the same are hereby amended by rezoning the property herein described from CD-3 (Neighborhood Character District) to CD-3L (Neighborhood Large Lot Character District).

Section 2: Said properties to be rezoned, being lots 1-16; 18-38; 41-44; portions of 45-47; 48-55; and 57-62, in the Carriage Hills Subdivision are located in the Third Civil District of Maury County, Tennessee, within the corporate limits of the City of Columbia, as described on Exhibit "A", which is attached hereto and incorporated herein by reference. A location map showing the proposed area to be rezoned from CD-3 (Neighborhood Character District) to CD-3L (Neighborhood Large Lot Character District) is attached hereto, identified as Exhibit "B" and incorporated herein by reference.

Section 3: This Ordinance is passed after review of Columbia Zoning Ordinance Section 8.5.19.H.4 by the Columbia Municipal Planning Commission with a recommendation of denial on the 12th day of July, 2023, and after a public hearing held on the 14th day of September, 2023, with notice of said hearing being given in The Daily Herald of Columbia, Tennessee, fifteen (15) days or more before said hearing.

Section 4: That pursuant to Section 8.5.19.K.6, the City Council makes the following specific findings:

A. The proposed rezoning is in agreement with the Comprehensive plan and any applicable local area plans;

B. It has been determined that the legal purposes for which zoning exists are not contravened; and

C. It has been determined that there will be no adverse effect upon the Adjoining property owners unless such effect can be justified by the overwhelming public good or welfare;

Section 5: That all ordinances or parts of ordinances in conflict herewith are hereby repealed.

PASSED AND ADOPTED BY THE CITY COUNCIL OF THE CITY OF COLUMBIA, TENNESSEE, This the 14th day of September, 2023.

SUMMARY OF REQUEST: **Zoning Map Amendment (CD-3 to CD-3L)**

The applicant, a representative of a larger group of property owners, requests to rezone 52 existing single-family lots and portions of an additional 3 lots. All together the subject properties comprise approximately 33 acres in the Carriage Hills subdivision from CD 3 (Neighborhood Character District) to CD-3L (Neighborhood- Large Lot Character District).

This request is unusual in that it is made by a group of property owners who do not intend to further develop the subject properties. The concept plan submitted with the request is simply the current lot configuration of the neighborhood. This report summarizes staff analysis regarding consistency, conformity, and compatibility of the proposed rezoning. The applicant also provided a thorough explanation of how the request satisfies the approval criteria for a rezoning as part of the response to technical comments.

CONSISTENCY with the **COMPREHENSIVE PLAN:**	**PROPERTY HISTORY:**
Suburban Neighborhood: The future land use of the subject property is Suburban Neighborhood. The classification is characterized by residential neighborhoods with limited intermixed and compatible civic uses. The requested CD-3L zoning designation is consistent with the Suburban Neighborhood future land use classification.	Existing improvements on the property consists of single-family homes and various accessory structures. The homes were constructed outside the City of Columbia in 1980s and 90s. The City annexed the neighborhood in the early 2000s.

CONFORMITY to the ZONING ORDINANCE:

As required by § 8.5.19.F.3 of the Zoning Ordinance, the applicants provided a concept plan (i.e. "Sketch Development Plan"). In this case the applicants do not intend to develop the properties and simply provided a cadastral map depicting the current lot configuration.

The lots at 104, 108, and 112 Saxon Court are partially in the City and partially in unincorporated Maury County. The street frontages and existing principal structures are located inside Columbia. For those properties, the rezoning would only impact the portions located inside the corporate limits of Columbia.

Zoning Ordinance Referenced:

Proposed CD-3L Character District (Table 4.3.1-C, p. 56-65)

Both the current and requested zoning designations are residential in character. The Zoning Ordinance permits two dwelling unit per acre in CD-3L and four dwelling units per acre in CD-3. The minimum lot width for a "front-loaded" single family home is 100 feet in a CD-3L and 65-feet in a CD-3. House (i.e. detached single family homes) is the only permitted structure type in CD-3L. The CD-3 permits the duplex (i.e. two-family homes) structure type on lots with at least 100 feet of frontage under limited circumstances.

The Ordinance describes the CD-3L Neighborhood District as a low density single-family detached residential area in which houses form the predominant building type. Lots and building sites are large with medium to deep setbacks. Thoroughfares form medium to large-sized blocks, may have curbs, and may include sidewalks and street trees. The district permits a maximum density of two dwelling units per acre. CD-3L is an appropriate implementing district for the Suburban Neighborhood future land use classification.

Lot/Building Site Width (Table 4.3.1-C, p. 57)

- Minimum lot width of 100
- No less than 80% of lots must enfront a vehicular thoroughfare or internal drive conforming to the standards of the Ordinance and Subdivision Regulation
- Up to ≤ 20% of the lots may enfront a pedestrian path, passage, pedestrian walkway if such Lots have legal and physical vehicular access to a vehicular thoroughfare via driveway or Easement

Lot Standards/ Principle Buildings (Table 4.3.1-C, p. 68)

- 30' min front setback
- 12' ft min side setback
- 30' min rear setback (measured from the rear property line or centerline of rear alley as applicable)

Staff Comment:

The request to rezone all lots in an existing built-out subdivision is unusual. The change in entitlements is unlikely to change the physical character of the neighborhood. The existing homes and lots generally conform to the CD-3L standards, although cul-de-sac lots on Saxon Court have less than 100 feet of frontage. Although it is unlikely, some lots in the neighborhood could accommodate duplexes under the current CD-3 zoning. Changing the zoning to CD-3L would eliminate this option, effectively "downzoning" the properties by reducing the maximum permissible intensity of development.

Zoning Map Amendment:

Staff reviewed the request for a zoning map amendment for conformity with the standards listed in the City of Columbia Zoning Ordinance. The relevant provisions of the Ordinance are listed below, followed by staff analysis.

Staff's review of Section 8.5.19.H.4 in relation to this request finds the following:

a. Whether the Rezoning is consistent and not in conflict with the Comprehensive Plan or other applicable approved local plans for the area;

The subject properties have a future land use classification of Suburban Neighborhood (Connect Columbia Map 4). Both the current and proposed character districts are consistent with the Suburban Corridor future land use classification (Connect Columbia p.22; Table 3.7.1 p.36 of Zoning Ordinance).

Most of the subject properties are not located in an Area of Change; some of the lots in the northern portion of the subdivision are located within an Area of Change (Connect Columbia Map 3). The partial inclusion of the neighborhood in an Area of Change appears to be an error. The Area of Change map appears to indicate that in 2017-2018, the Planning Commission determined that the development pattern was established and changes to overall character of the area should rarely occur. This does not necessarily mean that the proposed change is inconsistent with Connect Columbia. However, the plan advises a "pause" and careful review to ensure that the context of the area surrounding the subject property is considered (Connect Columbia p. 14).

b. Whether the legal purposes for which zoning exists, as set forth in Section 1.5[, are not

contravened];[1]

All future use of the properties will be required to conform to the standards of the Zoning Ordinance. The standards protect and promote the public health, safety, morals, comfort, convenience, and general welfare of the people and community (§ 1.5.1.A p. 6).

The requested rezoning will potentially reduce the beneficial use of property by eliminating the option to construct duplexes on some lots (§ 1.5.1.P p. 7). However, the predominate and actual use of the properties for single family homes will not change.

The Planning Commission may determine that the proposed rezoning furthers the other purposes of zoning listed at §§ 1.5.1 and 1.5.2 of the Ordinance.

c. Whether there will be any adverse effect upon adjoining property owners unless such effect can be justified by the overwhelming public good or welfare;

There are no known adverse effects upon adjacent property owners.

d. Whether any one property owner or small group of property owners will benefit materially from the change to the detriment of the general public;

Rezoning the property will not confer material benefits to the owners. Any potential detrimental effects on the general public can be mitigated through the standards in the Zoning Ordinance.

e. Whether conditions affecting the area have changed to a sufficient [extent] to warrant the Zoning Map Amendment or that the existing zoning of the property was the result of a mistake;[2]

The proposed change to the zoning map does not have a material impact on the city as a whole or the subject properties, except that that maximum potential development of the neighborhood would be reduced by a few units. The unanimity of the residents in making this request indicates that the change (elimination of potential duplex units) is the desire of the Carriage Hills residents.

f. Whether adequate school, road, parks, wastewater treatment, water supply, and stormwater

[1] Ordinance 4400 contains this incomplete sentence. The previous ordinance contained a nearly identical list of criteria at § 3.18.7.B. The corresponding criterion in Ordinance 3638 read "the legal purposes for which zoning exists are not contravened."

[2] The word *extent* was unintentionally omitted in the drafting of Ordinance 4400. The word was present in the corresponding criterion in Ordinance 3638.

drainage facilities are available.

The Carriage Hills neighborhood is already established. Residents benefit from established urban services except that most properties in the subdivision are served by private septic systems and do utilize sanitary sewer. The proposed rezoning would reduce rather than increase the potential number of households on the subject properties. In practically terms the total number of dwelling units will not change. Technical comments from public service providers generally indicate that services remain in place. However, Maury County Schools, did submit comments on the proposed rezoning indicating that the high school which serves families in Carriage Hills is currently operating above capacity.

Project #:	23-0244	Location:	Tax Map 51 Parcel 2.0
Applicant:	David McGowan III	Case Type(s):	PUD Revision
Staff Planner:	Kevin C. McCarthy, AICP	Proposed Use:	Mixed-Use

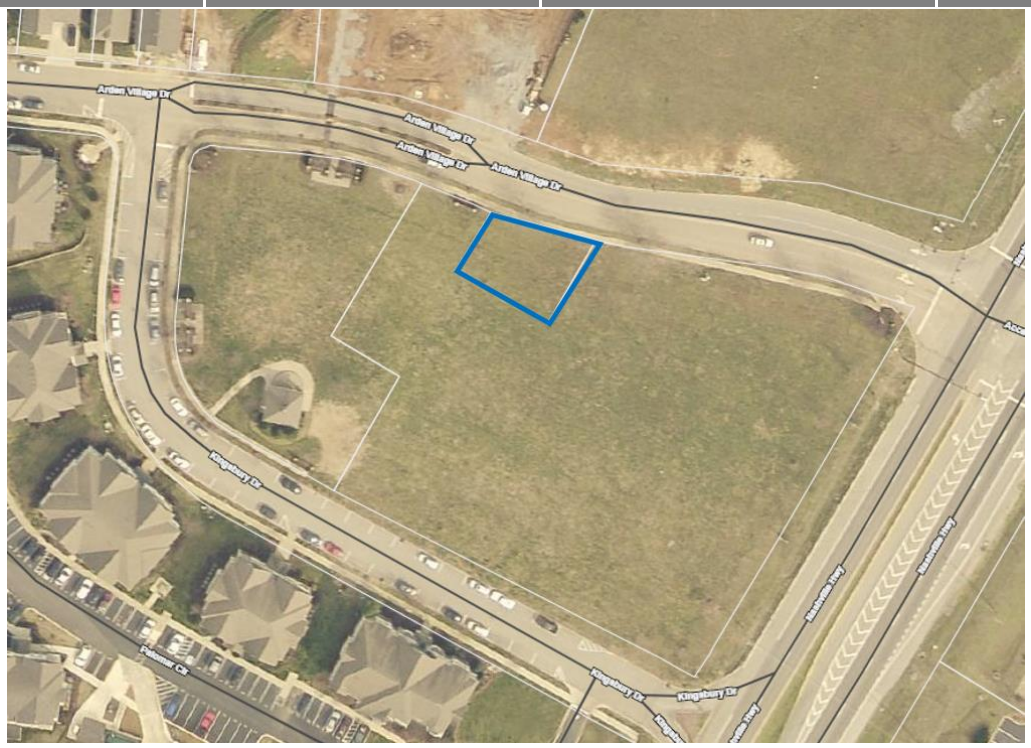

PROJECT SUMMARY

The applicant requests approval of a modified Planned Unit Development Master Plan. Specifically, the applicant proposes to modify the mix of uses. The subject property is part of a larger primarily residential development. The Master Plan calls for a two-story building with retail and office space. The applicant now proposes to construct a three-story mixed use structure featuring retail spaces on the ground floor and a total of six residential units on the upper two stories.

- The property is subject to a PUD Master Plan based on the CEG-PUD standards of the previous Zoning Ordinance. The applicant is requesting to revise the Master Plan.
- The applicant proposed a similar revision in 2022; the Planning Commission recommended denial.
- The current Master Plan was approved under Ordinance 3638, in effect between 2006 and 2022. The approvals created a vested right to develop under the standards in effect at the time.
- The Planning Commission is a **recommending body** for modifications to a PUD Master Plan which result in an increase in the number of dwelling units.
- Action on this request is a land use policy decision by Planning Commission and City Council. The Planning Commission recommended denial of the applicant's previous request to change the mix of uses in the Master Plan. At that time, the Planning Commission identified a preference to retain commercial land uses in the area. The applicant proposes that residential units and enhanced retail space are consistent with the intent of the Master Plan.
- Templates are provided at the end of the report to assist the Planning Commission in crafting properly formatted motions.

CONSISTENCY WITH CONNECT COLUMBIA

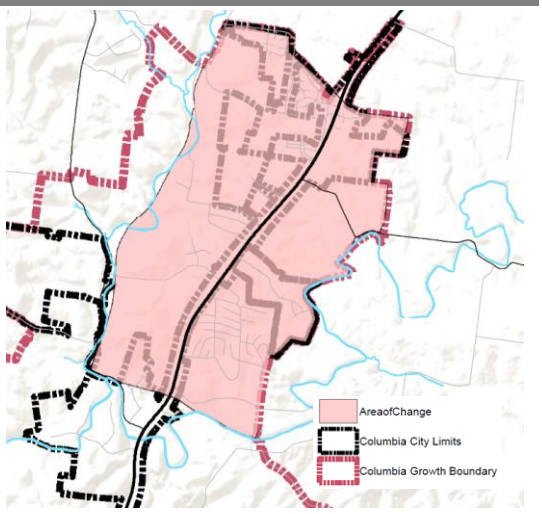

Suburban Corridor: The future land use of the subject site is Suburban Corridor. The Character Area is characterized by a mix of residential and commercial uses with intermixed and compatible civic uses. The Future Land Use Plan indicates that "the general development pattern is largely site specific" (Connect Columbia, p. 26). The specific character of the Corridor relies on the Area of Change determination. Development can take the form of single- and multi-use activity on a variety of lot sizes, depending on the surrounding development pattern (Connect Columbia, p. 26). The Character Area Matrix from page twenty-six of the Future Land Use Plan (excerpted below) is a guide to approving requests for zoning map amendments and Planned Unit Developments. The future land use classification is implemented by the CD-4C character district and PUDs.

[1] PUD designations authorized under Ordinance 3638 and previous ordinance are identified in ordinance 4400 as "Other PUDs" subject to their applicable master plans. These standards remain in effect until the PUDs are revised under the current standards. Some have no effective master plan, meaning they will eventually develop under PUD-MU standards. Others are regulated by their respective Master Plan approvals.

CHARACTER AREA MATRIX				
	Development Pattern	**Zoning Category and Uses**	**Infrastructure**	**Design Standard**
SUBURBAN CORRIDOR	**Is the property in an Area of Change?** **No:** The development pattern is established. Changes to overall character of the area should rarely occur. **Yes:** The development pattern is evolving. Changes to area are likely as development occurs. New development should blend with existing, surrounding neighborhood assets.	**Residential Uses:** Low Density Residential, Medium High Residential, and High Residential Districts **Public and Civic Uses:** Religious, Day Care, Government, Medical, and Educational **Commercial Uses:** Hotels, Recreational, Restaurants, Retail, Personal Services, Self-Service Storage, Vehicle Sales and Service, and Wholesale Trade **Office Uses:** All office uses	**Not in an Area of Change:** Limited new services, with mostly in-fill enhancements to existing infrastructure. **Within an Area of Change:** Extensions to transportation, water, sewer, and other services should be expected. New service or extensive redevelopment of existing services should be vetted and reviewed by Planning Commission and City Council as a primary element of approval.	Scale: Buildings should be compatible with the established character of the area. Architecture: New developments should include a mix of architectural styles. Buildings should include quality materials with architectural details and features. Parking: Parking should be contingent on the location of the site along the transect, becoming more subordinate to buildings as urbanity increases.

AREA OF CHANGE

The subject site is located in an Area of Change (Connect Columbia Map 3). In 2017 the Planning Commission determined that the development pattern in the area was evolving. Changes to the area are likely, but new development should blend with existing neighborhood assets. The designation does not necessarily mean that any particular development proposal is consistent with Connect Columbia. It does mean that the Planning Commission has previously determined that in this area, the development character is not fixed and change is expected over time (Connect Columbia p. 14).

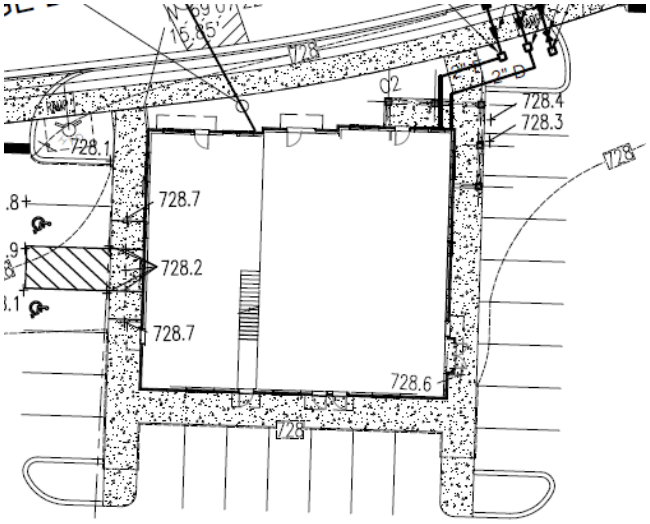

CONFORMITY WITH ZONING ORDINANCE

The change of use is the primary deviation from the previously approved Master Plan. The proposal generally conforms to the bulk and design standards of the Master Plan and the applicable ordinance (3638).

- The Architectural Design Review Team previously recommended approval of proposed elevations. The façade materials consist of fiber cement board with a brick base. The design includes decorative cornice.
- The proposed revisions increase the overall height of the building from two stories to three stories and increases the ground floor ceiling height.
- The placement of the building has not changed

The Design Review Team Recommended Approval of the Façade Design Above

The Utility Plan provided by the Applicant indicates the Placement and Footprint of the Building

REVIEW PROCESS

The Development Review Committee reviewed the proposed Preliminary Plat at its JUly 2023 meeting, as directed by § **8.3.7** of the Zoning Ordinance. Technical comments are provided in the agenda package and summarized above.

As required by § **8.5.4** of the Zoning Ordinance, staff posted signs on the subject property, mailed letters to adjacent property owners, and published notice of the Planning Commission's meeting in newspapers of general circulation.

Section **8.5.21.Z** of the Zoning Ordinance authorizes the Planning Commission to recommend approval of modifications to a Final PUD Master Plan during the period of actual Development.[2] Changes which result in "any increase in the number of dwelling units" must go on to City Council for approval (p.465-466).

The criteria for review are listed at **§ 8.5.21.Z.4** (p. 466)**:**

a. The modification shall be limited to the minimum necessary;

[2] Section 9.3 of the Zoning Ordinance defines "Development" includes "making or planning for [hu]man-made changes to land" (p. 490). Although no "Actual Construction" has commenced, the applicant's ongoing activities are within the meaning of the term Development. The Planning Commission may approve minor revisions to a Master Plan during development without additional approval by City Council. The Zoning Administrator may not authorize changes administrative adjustments until after the development is complete.

b. Strict application of the provisions of the approved Final Master PUD Development Plan or amendment to Final Master PUD Development Plan would result in practical difficulties or unnecessary hardship;

c. There are exceptional or extraordinary circumstances or conditions applying to the land, Buildings, Structures or Uses referred to in the request for modification, which circumstances or conditions do not apply generally to other land, Buildings, Structures or uses in the same type of PUD District;

d. The requested modification will not be detrimental to the public welfare or injurious to property or improvements in the neighborhood of the premises;

e. Under the circumstances of the particular case, the requested modification will not adversely affect the health or safety of persons working or residing in the neighborhood of the premises;

f. The requested modification is consistent the intent and purpose of this Ordinance, the Comprehensive Plan, and the approved Final Master PUD Development Plan or amendment to Final Master PUD Development Plan and will not adversely affect the community objectives of the Comprehensive Plan; and

g. The requested modification will not result in any reduction of required Buffer areas or other specific open spaces required by this Ordinance and will not vary any District or Development standard applicable to the PUD under this Ordinance.

SUMMARY OF DEVELOPMENT REVIEW COMMITTEE COMMENTS

The DRC reviewed this proposal at its July 2023 meeting. A full list of comments, and the applicant's responses, is provided in the agenda packet. Some key comments are noted below.

- **Planning** requested that the applicant clarify what has changed since the previous request to modify the Master Plan**.**
- **Public Works** advised the applicant of standards for public trash pickup.
- Columbia Power (**CPWS**) noted that supply chain concerns could affect the timing of any development. This is a standard comment from the utility.
- The **Office of the Fire Marshal** noted that the building will require sprinklers.
- Columbia Water System's (**CPWS**) consultant (Inflow) confirmed that water available to serve the site for general needs and fire protection. The water availability letter will expire in October 2023.
- **Maury County Schools** noted that the site is currently in the attendance zones of Spring Hill Elementary, Spring Hill Middle, and Spring Hill High School. New

construction or realignment of school attendance zones may be necessary to accommodate new students. This is a standard comment from the school system.

COMMENTARY FROM PROFESSIONAL PLANNING STAFF

The decision on this request is a land use policy choice by Planning Commission and City Council. The Planning Commission recommended denial of the applicant's previous request to change the mix of uses in the Master Plan. At that time, members of Planning Commission identified a preference to retain commercial land uses in the area, which has experienced tremendous residential growth. Effectively, the Planning Commission found that criterion 8.5.21.Z.4.f of the Ordinance was not satisfied and that the requested modification was inconsistent with the intent and purpose of the approved PUD Development Master Plan and will the community objectives of the Comprehensive Plan. The applicant has provided a rationale for the modification. The applicant argues that the residential component will be compatible with the adjacent residential and live/work uses, and that the remaining retail spaces will have a more attractive design. In the applicant's view, these are enhancements to the plan which are consistent with the intent of the Master Plan.
